

Date of Board Meeting: September 16, 2025**Subject:** Reinstate Emergency Medical Services (EMS) Testing Fee**Recommendation:** Approve Reinstating EMS Testing Fee, Effective January 1, 2026**Background and Rationale:**

Previously, the EMS Program used EMS Testing to prepare students for the National Registry Exam. The EMS program recently adopted textbooks with a new publisher that does not include EMS Testing. The new publisher includes a test preparation application, but it does not provide analytics and evidence to support its success. EMS Testing is a proven platform with excellent analytics to guide student preparation. It also has excellent classroom applications and will help students determine subject matter in which to focus additional study time. The request is to add student course fees to cover the cost of the EMS Testing Platform as shown below:

Student Level	Course	Account Price
EMT	EMSP 1501 Emergency Medical Technician	\$60.00
AEMT	EMSP 1338 Introduction to Advanced Practice	\$78.00
Paramedic	EMSP 2306 Emergency Pharmacology	\$110.00

Cost and Budgetary Support: No cost; student fee covers the expense

Strategic Priority Alignment: ☒ Student Success ☐ Community Impact
☒ Resource Optimization ☐ Institutional Excellence
