# UNITED INDEPENDENT SCHOOL DISTRICT

Roberto J. Santos  
Superintendent

September 11, 2008

Mr. J. A. Molina  
UISD Board member  
District #4  
Laredo, Texas 78041

Mr. J. A. Molina:

In the spring semester of 2008, the district conducted a School Safety and Security Audit. As a result of this visit we received a listing of recommendations to improve safety in our campus.

Our highest incidents of vandalism, general misbehavior, class disruptions, and student fights occurred during third block. The students were allowed to roam around the school during their lunch time with limited monitoring as the greatest amount of supervision occurred in the school cafeteria.

One of the recommendations made by this committee was to limit the space allowed for students to travel during lunch times. At the beginning of this school year, we limited the perimeters for students to socialize during third block. The results have been positive, we have greater supervision of the students, and as result vandalism and general misbehavior has declined exceptionally. However, we are faced with a new problem: high traffic within one hallway causing added safety concerns.

After careful deliberation, we found that we can transform a walkway between buildings into another eating/patio area. By erecting a canopy to protect the students from inclement weather and providing durable patio tables, we can expand the number of communal spaces. In this manner, we can move students from an already crowded hallway to a more ample and safe public space.

I hope that after learning about our new plan you will consider assisting us in creating this common area for our students. I have attached a breakdown of costs to build this patio. Thank you in advance for giving our request every consideration and please do not hesitate to contact me if you have any questions.

Respectfully submitted,

  
Roylin B. Wilson  
Principal
