

Board Action Required

No Action Required

In response to the Coppell ISD Strategic Plan Committee which first met in January 2009, a series of Action Teams were created to develop a five year strategic plan for the district. These teams, which were made of teacher, staff, community members and students, met throughout February and March to develop action plans for their strategies. We respectfully request that you approve the strategic plan and action plans presented to you at the July 13, 2009 Coppell ISD School Board meeting.
