I Can Make a Difference in My Community!

This month we began our new unit, "I Can Make A Difference in My Community." We will continue to use the scientific method as we investigate through the lens of being an active citizen in our community. Your child will be introduced to one of the following topics: Caring for Animals, Gardening, Insects, Community Helpers and/or Trees. All these topics focus on our students being responsible and showing care for their environment. We look forward to seeing the action steps our students will take to help the living things in their community.

From the Library Book Nook - May 2024

Greetings from the library! We are busy reading stories during library time related to Unit 4: I Can Make a Difference in My Community. The students have also been excited to check out some of the new books we have acquired last month. With that being said, it is hard to believe that there is just a little over a month left of school this school year!

The last preschool library book check-out day is May 23rd, and all books will be due by May 30th. But do not worry, students will still be coming home with ARC books from their classroom. We encourage everyone to visit the West Chicago Public Library. Please see the information below about their summer reading program!

West Chicago Public Library Summer Challenge

Take the challenge and win prizes! We encourage everyone to explore the library this summer. Register for the challenge! By registering, you could win fun summer prizes! This year's challenge is more than just reading. You can get closer to completion by using library services, checking out items from our various collections, attending programs, and much more!

Reading with your child

We send ARC and library books home in the backpack for you to use. We also encourage you to join the West Chicago library for additional books in your home.

As you read to your child, ask them questions about the pictures and stories and celebrate together all they are learning! Here are some [comprehension questions](#) for you to ask.
