RE: Abigail Doig

It is my recommendation that Bridgman Public Schools hire Abigail Doig as a part-time counselor for Bridgman Elementary School. Abigail was selected by a committee that included a teacher, paraprofessional, school social worker, and building principal.

Abigail holds a Bachelor's Degree in Behavioral Science from Purdue University Northwest. She obtained her M.S. in Counseling and Human Services with a concentration in School Counseling degree from Indiana University South Bend.

Abigail has experience in school counseling, which will support the students and staff. This includes work with restorative practices, suicide prevention, Powerschool, testing coordination, and data-driven initiatives. Abigail has been a school counselor for three years. She also served as a full-time substitute teacher, working with elementary to high school students.
