

Collin College Student Government Association (SGA)

Collin College has had a massive journey in the past few years. Unfortunately, the previous year it suffered from incredibly low involvement within its chapter. This was reflected in their presence at the general meetings as there were no attendees, except the executive team. In Fall of 2019, there were only about three members that attended the region conference; their recruitment efforts gained them five members for the region spring leadership conference of 2019. The greatest lesson they all learned at the meeting was to empower students.

Current President Samar Rawas and Current Vice President Juan Sanchez established an excellent team for the 2019-2020 year. They took what they learned at state with the mission and the view of an impactful future for their SGA and other organizations at Collin College. Collin College SGA implemented the Student Government Association Representatives from each organization, just like those in other colleges, and allowed them to flourish into bright leaders. We now have over 87 students attending the Student Government Association meetings, but it doesn't end there. Not only did students further their involvement, but they helped organizations understand the processes in student engagement and to stay educated on what Collin College has to offer.

Each of the twenty delegates that attended the 2019 fall leadership conference joined a committee in the Region and has remained involved in the SGA at Collin. This is a fantastic transformation, as in the past, there were only three attendees.

Lastly, the spring regional conference was historical in terms of even more delegates attending within Collin College but also with the sweeping victories earned through their hard work. Collin placed first, at Region, in Scrapbook of the Year, Event of the Year, Chapter of the Year, and won second in Student of the Year and Advisor of the year. The team is stronger than ever, and with elections recently coming to an end, we have three officers that were elected to serve a second term! As a team, we all decided, with the approval of our advisors and pending the administration's approval; we are running for Host School for the State Conference next year and President of the Region 2 Conference.

I am incredibly confident that the legacy will remain secure at Collin College, and I am genuinely proud to be a part of an organization that thrived off of authentic leadership.
