

**Ft. Vannoy Elementary**  
**Oct 17 Site Council Meeting Minutes**

Members present: Alicia Timbs, Jamie Krull, Treva Aguinaga, Valli Harrell

All introductions were made and Alicia explained the purpose of the site council and what the Site Council had worked on last year (ie: decisions about where the blended classroom would be, parent homework survey)

Jamie volunteered to take minutes

The team reviewed the last 4 years of enrollment. We currently have the largest kinder enrollment (51) in the last 4 years. The large decrease from 16/17 to 17/18 was due to the fact that there were 59 5th graders in 16/17 and a class of only 35 kinders the following year. If enrollment continues to increase, another teacher may be needed.

Recent enrollment:

16/17 281

17/18 254

18/19 246

19/20 256

Alicia explained the process of setting the building budget in the Spring and went line by line to explain items . The following questions came up:

- Why do we lease instead of purchase copy machines?
- What do we do about the short chromebook life?

The team completed the “stakeholder engagement & partnerships” portion of the needs assessment. There was a conversation about the most effective ways to communicate with families regarding school events and student progress.

Next meeting is Nov 21
