

Consider Approval of Course Fees for Academic Year 2026-27, Effective April 1, 2026

Fees for academic year 2026-27 will be assessed to the courses listed on the attached spreadsheet to defray the cost of consumable materials and supplies needed to support the instructional process. Health insurance, liability insurance, and testing fees are included. Inclusive Access fees will be added to all courses unless the faculty chooses to opt-out to use other instructional materials. Inclusive Access fees will be 100% refundable until the class census date and then they are 0% refundable.

Staff requests the Board's approval of the recommended course fees with an effective date of April 1, 2026.
