

Consent Item

Date: June 8, 2026

Division: Superintendent

Subject: Superintendent/District Goals

Background Information:

- In the fall of 2022, the district engaged in the long range planning process to update the district's shared vision, mission, and goals. The Long Range Plan was approved by the Board in April of 2023. The plan and scorecard metrics were indicated to cover a three year period to last through the 2025-26 school year.
- At the May 11, 2026 Board Meeting the 2030 Long Range Plan and associated District Scorecard were adopted that will commence beginning with the 2026-27 school year.

Administrative Consideration:

- While the Long Range Plan and District Scorecard elements indicate all work that is a focus for the district, a subset of the District Scorecard elements will comprise the District/Superintendent goals and those goals will be included in the Superintendent Evaluation in section one.
- Initial scorecard metrics for Superintendent goals were discussed at the April 29, 2026 special Board meeting, selected items now proposed incorporate feedback from that meeting.

Recommendations:

- Adopt the identified Superintendent District Goals from the Long Range Plan Scorecard for the Superintendent Evaluation instrument for the 2026-27 school year.

Timeline/Report:

- Progress and reports will be made during Student Learning Updates, District Improvement Plan Updates, and other annual reports to the Board during the 2026-27 school year along with at the Superintendent Formative Evaluation meeting.
