Principal's General Narrative:

Students have been getting back into the swing of things concerning school matters. They are involved with classes, band, P.E. / athletics, and other activities. We have had some absences due to a stomach virus, and doctors' appointments.

7th and 8th grade Investigation Classes are going well as the teachers involved with these new courses continue to develop their curriculum in each class. These are twelve week courses that the students rotate between over the course of the year.

1. Mrs. Rueda teaches a course on Healthy Lifestyles which focuses on healthy life choices related to food and provides hands-on learning for the students.
2. Mrs. Woodson teaches a course on Archaeology which focuses on learning about the study of ancient people and various aspects of their lives. Guest speakers and short field trips will be utilized when possible to enhance the learning experiences.
3. Mrs. Conoly teaches a course on the History of Kinney County. Guest speakers and short field trips will be utilized in a variety of hands on learning experiences for the students.
4. Mrs. Hibbitts will utilize the PITSCO Lab to provide hands on learning experiences for the students in the areas of math and science.
5. Mr. Edwards teaches a course on Horticulture providing classroom and hands-on experiences both outdoors and in the greenhouse. Seasons will determine the particular types of experiences the students will be exposed to.

All 6th, 7th, and 8th grade students have taken care of immunizations and turned in the Free and Reduced School Meals Applications at this point in time.

BISD School Nurse, Farran Morris, saw 37 junior high students this month, 12 were administered first aid, 11 parents were contacted, and 10 students were sent home.

All Brackett Middle School teachers have been extremely busy preparing for classes, working with students, going beyond their expected duties to help students learn. They are a very dedicated and professional group of outstanding individuals.

Thank you for all you do as the Brackett ISD Board of Trustees to help our school to be a successful place of learning for students in both academics and life.

Respectfully submitted,

George T. "Stoney" Burks
