2. General Education Provisions Act (GEPA) Section 427 *

Section 427 of GEPA (20 U.S.C. 1228a) affects all applicants submitting proposals under this program. This section requires each applicant to include in its proposal a description of the steps the applicant proposes to take to ensure equitable access to, and participate in, its federally assisted program for students, teachers and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. The applicant should determine whether these or other barriers may prevent students, teachers, etc. from such access to, or participation in, the federally funded project or activity. The description of steps to be taken to overcome these barriers need not be lengthy; the school district may provide a clear and succinct description of how it plans to address those barriers that are applicable to its circumstances. In addition, the information may be provided in a single narration, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of the civil rights statutes, but rather to ensure that, in designing their programs, applicants for federal funds address equity concerns that may affect the ability of certain beneficiaries to fully participate in the program and to achieve high standards. Consistent with requirements and its approved proposal, an applicant may use the federal funds awarded to it to eliminate barriers it identifies.

Describe the steps that will be taken to overcome barriers to equitable program participation of students, teachers, and other beneficiaries with special needs.

([count] of 2500 maximum characters used) River Forest School District does not discriminate based on gender, race, national origin, color, disability or age. The School District makes every effort to assure full participation of all students and staff members in all instructional activities for students and professional development activities for all staff. The District has an Inclusive Advisory Board, and an Equity Committee that includes administrators, teachers, and community members, as well as Strategic Plan goals related to equity and student achievement.

3. General Completion Instructions

Work through the tabs from left to right. Save each page before moving to the next tab.

Required fields on each page are dependent upon funding sources selected on the Coordinated Funding tab. Many pages have notes at the bottom indicating for which programs the page is required.

To determine if a page is required for the funding sources selected earlier in the application, save the page before completing and look for error messages. If none, the page is not required for the program(s) selected.

How to Complete Pages with Pre-populated Fields

Several pages have two boxes below the narrative questions - one has the response from the prior year plan and the other allows responses for the updated plan. Copy the response from the redisplay and paste it into the updated plan box, revising the description as necessary. Be sure to save the page once this has been completed for all questions on the page.

Some pages display sections based on which grants were selected on the Funding page as anticipated as funded. To change the sections that display, return to the Funding page and select or de-select grants for which funding is anticipated.

Program Risk Assessment pages must be completed for FY2021. In future years, those responses are expected

to pre-populate in the grant, with an opportunity for the entity to review and revise as necessary.

2. Describe how the LEA will align federal resources, including but not limited to the programs listed above, with state and local resources to carry out activities supported in whole or in part with funding from the programs selected.* [2] For your convenience, the FY20 Consolidated District Plan approved response is provided below. District 90 will align federal resources from the above programs with state and local resources in the following ways:

Title I funding will support an Instructional Coach at the designated Title I school. The role of the Instructional Coach is to support teachers through job-embedded professional learning and collaboration to engage in deep investigation of instructional pedagogy and systematic review of student assessments. District 90 continues to align its systems to the Common Cores State Standards for English Language Art and Mathematics. The Instructional Coach leads grade level/content area collaborations to connect best practices and educational research to classroom instruction. Data informed instructional decision-making drives teacher reflection and adjustment to instruction. Professional collaboration teams utilize NWEA-MAP, AIMSWEB, and classroom-based common assessments to review overall achievement in order to provide targeted instruction to the range of learners in each classroom.

Title II funding is aligned to District 90 goals and objectives related to student growth and achievement. Title II funding is allocated to content areas that have recently adopted new curricula, to provide high-quality, job-embedded professional learning for reading, writing, and mathematics. Title II funds support District 90's partnership with Solution Tree to support the district with the development of standards-based learning unit planning and assessment development for grades K-8 in ELA, mathematics, social studies, and science.

Title IV funding of \$10,000 will be transferred into Title I as it has been in previous years.

IDEA grant funds (Part B Flowthrough and Part B Preschool) will support continued differentiation including curriculum programs and materials, staff development and staff allocations to promote the academic growth of students who are eligible for special education services.

Response from the approved FY20 Consolidated District Plan.

A.Title I, Part A - Improving Basic Programs

Three times a year, District 90 reviews student data to support the MTSS process. Subgroup data is reviewed to determine areas of need. District 90 continues its alignment to the Illinois Learning Standards for reading and mathematics and maintains the goal that subgroup status or background should not be a predictor of student performance or success on standardized assessments. Review of student data indicates that most stakeholder groups are growing at a similar rate, but the achievement gap still persists in the areas of reading and mathematics. Instructional Coaches review student data with grade level teams to target skill areas for further development and best practices instruction to support student growth and achievement. Instructional Coach will work with teachers to implement reading and math strategies to close the achievement gap for Title I students.

B.Title I, Part A - School Improvement Part 1003(a)**C.Title I, Part D - Delinquent****D.Title I, Part D - Neglected****E.Title I, Part D - State Neglected/Delinquent****F.Title II, Part A - Preparing, Training, and Recruiting**

Also identify needs assessment results, including description of strategies for closing any achievement gaps and for key professional development opportunities for teachers and principals.

District 90 conducts data review meetings three times/year in the Fall, Winter, and Spring to identify students through our MTSS process. The District reviews NWEA-MAP, AIMSweb Plus, Foundational Skills Inventory, and math fluency data to surface the range of student needs in each classroom. Review of sub-group data allows teachers and grade level teams to utilize small group instruction and/or more targeted instruction with students within the regular classroom to offer targeted skill/strategy work tightly aligned to student instructional needs. It allows for more tailored instruction and individualized support for each student. Title II funds provide professional development opportunities that align to trends within the disaggregated data related to ELA and mathematics. All professional development opportunities are aligned to District goals and objectives as outlined in our Strategic Plan. District 90 continues to target 90% of students will meet or exceed standards on the Illinois Assessment for Readiness on both English Language Arts and Mathematics. We currently partner with Solution Tree consultants to support teachers with high quality professional development related to standards-based learning and assessment.

G.Title III - LIEP**H.Title III - Immigrant Education Program****I.Title IV, Part A - Student Support and Academic Enrichment**

Also provide information for Title IV-A programs and activities planned as a result of needs assessment that align with the Title IV-A budget.

Title IV funding is transferred to Title I which funds an Instructional Coach position for the designated Title I school in the district. The instructional coach supports teachers to develop enrichment instruction along the continuum of classes offered, professional development in the area of goal writing, inclusion, behavior management plans. The results of this review in addition to school report card data will be used to develop training and workshops for the FY21 school year.

J.Title V, Part B - Rural and Low Income Schools**K.IDEA, Part B - Flow-Through [1]**

District 90 continued with ongoing consultation and coaching with Easter Seals during the 2020-2021 school year. Consultants from Easter Seals visited instructional classrooms monthly which provided observation of instruction, providing coaching to teachers and paraprofessionals. They provided monthly reports which highlighted the need for additional options for curriculum instruction along the continuum of classes offered, professional development in the area of goal writing, inclusion, behavior management plans. The results of this review in addition to school report card data will be used to develop training and workshops for the FY21 school year.

L.IDEA, Part B - Preschool

Review of student assessment data including goals and progress at the preschool level indicate continued need for growth in the area of IEP development that aligns to the specific development of students with IEP's in the preschool. Staff surveys indicate the need for further development in promoting inclusive practice for all students in the general education population, including those in the preschool program.
