Panorama Student Survey

MS Staff met on October 31st to analyze the results of the Panorama SEL survey the students took earlier in the year. While the results showed that the students seem safe and happy at school, for the most part, the staff brainstormed ideas to help address areas that they know could be better.

Implementing the Caring Schools Community curriculum was already in the plans for after Christmas break, but the staff pushed to start this sooner, which helps with their buy-in as well. They also suggested planning more integrated activities among the students as teams and as an entire student body to help with team building, leadership, and overall confidence, especially among our 7th grade students.

At our staff meeting on November 13th, the teachers established grade level teams (3 at each grade), which will eventually have their own identity (name, colors, character traits, mascot). These teams will participate in team building activities/competitions, starting with a Christmas themed door decorating activity. There will be at least 1 monthly assembly/activity for the teams to participate in for the remainder of the year.
