Priority Performance Goal

2103-2014

*District Priority Goal-Improvement of the District Academic Instruction Program

The AEIS (Academic Excellence Indicator System) and TAKS (Texas Assessment of Knowledge and Skills) have been changed and a new system is now in place. The TAPR (Texas Academic Performance Report) and STAAR (State of Texas Assessment of Academic Readiness) are currently being used to analyze all Texas Independent School Districts. I have modified my evaluation to accommodate these changes in the system.

*The addition of Brittney Davis as the Curriculum/Instruction/Assessment Coordinator has been a great asset to the Academic Instruction Programs at Waskom ISD. I truly believe that our school district will develop a stronger academic instruction program in the coming years.

*The benchmark testing process has been greatly improved at each campus. Brittney Davis is assisting our three campus principals in the process of improving the benchmark testing process. She is also assisting the campus principals on the process of how to use these scores to improve the curriculum, instruction and assessment on each campus.

*The campus principals have been very focused on improving the rigor and higher level instruction in every classroom.

*The campus principals and the CIA Coordinator are making a very special effort to complete as many walk-through observations as possible in every classroom on their respective campuses.

*I believe that we have developed a system that will greatly improve our Academic Instruction Program at Waskom ISD.
