

Dear Morrow County School Board,

My name is Giselle Pacheco. I have been working hard for the past three years to meet the graduation requirements. I will graduate on June 6, 2026 with my diploma. I would like to ask permission of the board to allow this.

Graduating early from high school is an important personal goal of mine. I am focused, motivated, and ready to begin the next chapter of my life. My dream is to pursue a career in nursing. Earning my diploma early will allow me to start working toward that goal sooner. I have always been passionate about helping others especially when they are most vulnerable. Nursing is not just a job to me its a meaningful career because experiencing the loss of my grandfather inspired me to make a difference in people lives every single day

I am choosing to graduate high school early so I can begin working towards my career goals without delay and fully dedicate myself to becoming a nurse by enrolling at Blue Mountain Community College. By graduating early I will be able to enter the nursing field sooner and start building the skills and knowledge necessary to make a meaningful difference.

After I finish my associate degree, with Blue Mountain Community College I plan to continue my education through OHSU Oregon Health& Science University to earn my bachelors degree and complete my academic pathway within four years.

Working to graduate early reflects my hard work, allows me to be a positive example for my family and community, and helps me to pursue my dream of caring for others sooner.
