Curriculum

The SGE Data Team has been hard at work preparing to support students as they get ready for their intervention groups. By analyzing student performance data, the team has identified those in need of additional academic assistance. Students will receive intervention 3 to 4 days a week, carefully grouped based on their specific needs, and will be re-assessed every 6-8 weeks to monitor progress. The team is collaborating with teachers to ensure instruction meets these needs. Their efforts are focused on creating a supportive learning environment that targets each student's unique challenges, helping them improve and succeed academically.

School Celebrations

Guardian, the Superhero, visited SGE on September 12, encouraging the students to BE A H.E.R.O (Helping Everyone Respect Others). The program covered key issues that included, bullying and peer pressure, positive choices and dream making, respect for authority and violence prevention, and self-esteem and academic excellence. Guardian ripped a phone book in half, bent a steel bar with his teeth, and broke a baseball bat!

Upcoming Dates
