ACTION

BACKGROUND INFORMATION

We have finalized proposals for paving work as requested by the Board. We need to decide swiftly on any proposed changes to OES parking, as Waldrop has already scheduled this work for week of July 5. Paving contractor needs to know adjustment decisions and could also consolidate trips if awarded Lion Field parking lot as well.

ADMINISTRATIVE RECOMMENDATION

No specific recommendation.

Lion Field parking / Band practice field is in dire need of repair. I really did not become aware of the condition of this lot until well after 2009-2010 school year started, or we would have worked that into budget considerations last summer.

Board preference should dictate action on PR#070. Waldrop agrees that concrete in projected bus drop-off areas and radiuses makes more sense than asphalt alone in the long term.

APPROVAL/DISAPPROVAL
