4 **Policy Name:** *Work Based Learning Program*

5 **Regulation:** #2600P

6

7 **Work Based Learning Program - Insurance**

8

9 The School District Work Based Learning coordinator will work with School District administration to
10 identify the appropriate insurance coverage for a student’s tailored work-experience opportunity. A student
11 will not commence a Work Based Learning opportunity until the appropriate insurance option has been
12 identified and implemented by all parties. The option selected will be noted as part of the student’s Work
13 Based Learning plan.

14

15 School District provides a work-based learning opportunity off school grounds. The learning opportunity
16 takes place during school period hours, awards school credit hours toward graduation requirements, and is
17 led by a teacher of the school district and/or co-taught by a trade person or general contractor. No workers
18 compensation coverage being provided. School District is responsible for general liability coverage for the
19 students and parent liability risk forms should be signed in advance to recognize the inherent risks present
20 with this learning opportunity and to clearly state the student has personal medical insurance coverage in
21 place.
