HEALTHY CHILDREN

Each child is required to have a physical and dental exam within 90 days of enrollment in the Head Start Program. Good health is critical in a child's development. Our campus has a full-time Registered Nurse (RN) who also serves as the Head Start Health Specialist. The RN ensures that each child has received regular dental and physical exams and meets the needs of students with acute and chronic health needs. During the 2017-2018 school year, health screening including hearing, vision, height and weight were performed on each Head Start Student.

Disabilities and Mental Health Services

During the 2017-18 school year the Denton ISD Head Start Program began the year with 5 returning students identified as eligible for special education services. At the start of the school year, 4 students were found to have been identified as eligible for special education while enrolled in another district program resulting in a total of 11 students eligible due to a disability on 8/16/2017. By January of 2018, the program had identified 10 additional students as having a disability through the RTI/Referral process. The program ended with a total of 29 students identified as having a disability.

The Disability Specialist implemented the procedure of completing the district's Universal Screener Report immediately after scoring the DIAL-4 used as the required screener. Information was also gathered from a review of the Ages and Stages Questionnaire 3rd Edition and the Disabilities Information Form. Both forms were completed by parents during Round-Up.

Mental Health Services continue to be provided by the district with the district providing a licensed professional counselor 2.5 days a week. Among the duties of the counselor are the provision of class lessons related to targeted character traits. The program continues to work with the University of North Texas to provide Play Therapy to students who demonstrate a need.

NUTRITION

The mission of the Denton ISD Child Nutrition Services is to contribute to a successful academic experience and to encourage a lifetime of healthy eating for each student. On a daily basis meals/snacks are offered to the students which meet 2/3 of the daily requirements. A variety of foods are offered to ensure the students are introduced to a wide array of foods which they might not otherwise experience. The students are served in the classroom through family style dining which provides them with the opportunity to develop social skills such as manners, conversation, and cooperation. Parent nutrition education classes are offered as well to continue to promote the idea of a healthy lifestyle beyond the classroom. The district's Child Nutrition Coordinator serves on the Head Start Program Team and Health Advisory Committee. She provides our center with a list of healthy snack options to serve. She serves as a resource for our families that have students falling in the obese/underweight categories. The nutrition department for DISD is dedicated to the students' health, well-being, and the ability to learn.
