Program Launched	02/02/2026
Est Annual Rx Savings	\$1,307,414
Annual Proactive Rx cost	\$46,650
Identified Patients	67
Identified Medication Claims	86

Q1 Results

Within less than two months of the program launch, the following savings and utilization rates have been achieved.

With continued outreach to increase program utilization and savings, these numbers are expected to increase for the next quarter.

\$238,697 annualized savings

18.3% of savings recognized

17 patients enrolled

28.8% of eligible patients enrolled

Proactive Rx Next Focus Areas

- Continue ongoing prescription claims analysis to identify newly eligible patients for savings opportunities
- Collaborate with providers on clinical interventions to improve health outcomes for patients with uncontrolled chronic conditions
- For current eligible patients:
 - Pharmacists have conducted outreach three times per patient
 - Cases are then referred to clinics for additional outreach attempts
 - If there is still no response after two months, a letter will be sent to patients who remain unreachable
- Develop and propose ideas for an incentive program to engage and enroll patients who previously declined
