

## Lincolnshire-Prairie View School District 103

Memo

To: Board of Education  
From: Dr. Craig Chatham  
CC: Dr. Scott Warren  
Date: **April 16, 2026**  
Re: Technology & Assessment Executive Summary

---

### **Assessment**

- Spring MAP testing will occur during the week of April 27 (Half Day & Sprague) and May 4 (Daniel Wright).

### **AI Committees**

- Since the AI committees are meeting during the same week as the April School Board meeting, more information will be provided in May.

### **Printer Service Contract**

- Genesis is the company we utilize to purchase, service, and support our printers and copiers across the district.
- We allowed one of our service contracts with Genesis to expire that contained 22 printers across the D103 buildings.
- As we reviewed the proposal to renew the service contract and receive new printers, we felt that it would be worthwhile to spend the next year seeing if we can support these devices internally at a lower cost.
- The service contract with Genesis would have cost us \$39,600 annually, or \$3,300 per month.

### **AI of the month!**

- BBC Article: [Finance ministers and top bankers raise serious concerns about Mythos AI model](#)

Bonus Article: [The Panic Over Smartphones Doesn't Help Teens...It may only make things worse.](#) You will need a subscription to the Atlantic to see the whole article, but you should be able to at least view the first two paragraphs. I'm including this article because it has a dissenting view to many articles that have come out lately in regards to screens and young people.
