State Regulated Funding

The State of Minnesota regulates all major funding for public school districts:

- The state sets formulas that determine revenue most revenue is based on specific amounts per student.
- Determines the amount of taxing authority each school district has access to.
- Authorizes school districts to generate additional funds through voter-approved referendums.

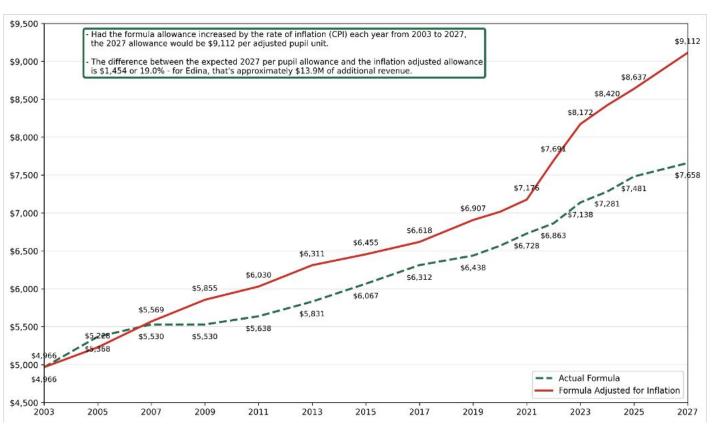

Basic Education Formula

- Primary funding source for all public school districts in the state:
 - Revenue = Formula Allowance x Pupil Units
- For fiscal year 2025-26, an increase of 2.74% or \$200 per pupil unit over 2024-25.
- Over the last 20 years, the formula allowance has significantly lagged behind inflation.
- The State Legislature agreed to tie future formula increases to inflation beginning with 2025-26, with a floor of 2.00% and cap of 3.00% (2026-27 increase of 2.37%).

Property Owner Tax Impact

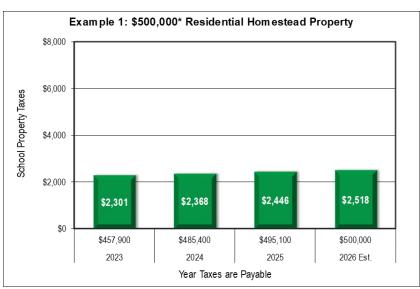

Several factors can impact the tax bill of a property owner:

- Changes in the value of individual property
- Changes in total value of all property within the district
- Changes to the total amounts levied by the district, the city, and the county
- Changes to state funding formulas or voter approved levies
