

new levy

**ssills@morgancounty-il.com Sherry Sills**  
To: rcunningham@jsd117.org 'Richard Cunningham'

Thursday, February 20, 2025 at 2:10:00 PM Central Standard Time

Andy was here today and we corrected the amount that was to much we did half this time and half next year.

Sherry,

Thank you for this. Can I see what the extension will be for 2024? I realize this is really early but with this being a unique circumstance, I want to see what the County calculates for our extension to how that compares to what I have calculated. I think the earlier would be better to give time in case there are any further issues that need to be worked out.

Sherry,

I hope your day is going well. I am following up to see if this year's tax extension has been calculated for us showing how the overpayment will be paid back. We really need to see this information especially as we prepare our budget for next fiscal year.

Hello Michael,

I am very thankful that you are on the commission at this time. I would like to meet to give you a heads up on an issue that has also happened that will shed some light on other errors that we have encountered.

My cell is [REDACTED] If you have any time, please let me know if you can meet.

Steve

## 1.5 million

**ssills@morgancounty-il.gov Sherry Sills**  
To: rcunningham@jsd117.org Richard Cunningham

Friday, April 4, 2025 at 8:44:32 AM Central Daylight Time

Hello, I'm reaching out to you because the commissioners and the States Attorney have been going over the letter that we received from your lawyer and not sure why the letter just states a one-time correction on half of the \$1.5 million that needs to be paid back. I know that I have emails from you that states pay back half this year and half next year but it's not stated in the letter, I have contacted the County's lawyer and have sent emails and the statue that we found stating that I can collect all of the 1.5 in one year. I have emailed your lawyer asking for an answer on the other half of this. So, if you can shed some light on this that would be great, this really needs to be paid back to the taxpayers.

Thanks

Sherry

Hello Sherry,

The letter highlights our resistance to any further reduction in our aggregate extension base. We are very willing to pay back the extra funds we received, but the solution must not result in permanent damage to the district. I am working with attorney Jeff Funk and I will be contacting a Chicago bond attorney to help determine how we can pay back the funds without the permanent damage.

Thank you Sherry.

We are not even opposed to paying back in one year, but we need to make sure it is done in a manner that will put us back on the proper track. I agree with the statement that this is for the lawyers to figure out. I am hoping that they can come to a method that everyone can agree with. However, I don't know if it can be done in time for the extension.

I also think that doing it in two years is better for the taxpayers. If they get one huge abatement they will be shocked next year when it dramatically increases.

I am contacting Kyle Harding from Chapman, Chicago tax and bonding law firm, to get his thoughts on how to pay this back. I will update you when I get a response.

Once again, we have every intention to payback the total amount collected above the "line" we were supposed to be on. We just need to make sure it results in being back on that proper "line".

I am meeting today with the Chicago attorney. I think it will take more time to figure out how to get this done so we would prefer to keep with the one time abatement this year. We know it will impact our AEB but we agree it should be lowered that amount to get it back on the proper trajectory.

This is what I got back from our lawyer, I'm going to move forward with this and correct it with my vendor, this error was done before I became County Clerk, so I want to move forward and get everything corrected this year so that we can move forward and have no more mistakes.

Sherry:

I understand that they are trying to work something out but to your point, you are trying to meet the statutory deadline. Without an agreement from the district in place, we need to proceed with the one-time abatement

of the full amount, or what is to stop the district from attempting to challenge the county's ability to collect in a later year or through other means. It sounds like they should be getting back to you very soon if they met with their attorney on Friday.

This is what I got back from our lawyer, I'm going to move forward with this and correct it with my vendor, this error was done before I became County Clerk, so I want to move forward and get everything corrected this year so that we can move forward and have no more mistakes.

Sherry:

I understand that they are trying to work something out but to your point, you are trying to meet the statutory deadline. Without an agreement from the district in place, we need to proceed with the one-time abatement of the full amount, or what is to stop the district from attempting to challenge the county's ability to collect in a later year or through other means. It sounds like they should be getting back to you very soon if they met with their attorney on Friday.

I am meeting today with the Chicago attorney. I think it will take more time to figure out how to get this done so we would prefer to keep with the one time abatement this year. We know it will impact our AEB but we agree it should be lowered that amount to get it back on the proper trajectory.

Thank you Sherry.

We are not even opposed to paying back in one year, but we need to make sure it is done in a manner that will put us back on the proper track. I agree with the statement that this is for the lawyers to figure out. I am hoping that they can

come to a method that everyone can agree with. However, I don't know if it can be done in time for the extension.

I also think that doing it in two years is better for the taxpayers. If they get one huge abatement they will be shocked next year when it dramatically increases.

I am contacting Kyle Harding from Chapman, Chicago tax and bonding law firm, to get his thoughts on how to pay this back. I will update you when I get a response.

Once again, we have every intention to payback the total amount collected above the "line" we were supposed to be on. We just need to make sure it results in being back on that proper "line".

Hello Sherry,

The letter highlights our resistance to any further reduction in our aggregate extension base. We are very willing to pay back the extra funds we received, but the solution must not result in permanent damage to the district. I am working with attorney Jeff Funk and I will be contacting a Chicago bond attorney to help determine how we can pay back the funds without the permanent damage.

Hello, I'm reaching out to you because the commissioners and the States Attorney have been going over the letter that we received from your lawyer and not sure why the letter just states a one-time correction on half of the \$1.5 million that needs to be paid back. I know that I have emails from you that states pay back half this year and half next year but it's not stated in the letter, I have contacted the County's lawyer and have sent emails and the statue that we found stating that I can collect all of the 1.5 in one year. I have emailed your lawyer asking for an answer on the other half of this. So, if you can shed some light on this that would be great, this really needs to be paid back to the taxpayers.

Thanks

Sherry

Thursday, April 17, 2025 at 11:23:52 AM Central Daylight Time

Here is the communication between me and Kyle Harding with Chapman:

Due to the CPI growth on that initial additional \$754,817.21 in taxes (and based on the spreadsheet you provided), it appears that a levy year 2024 abatement of \$832,662.98 would get your AEB back to where you would have been but for the (pervious) Clerk's error.

To the extent any additional abatement is required of the District to "return" the additional taxes to taxpayers, that additional abatement would need to come from a levy outside PTELL in order for the District to be held harmless in terms of AEB impact.

We calculate the total amount that would need to be abated to the taxpayers as \$2,383,800.34, such amount being the sum of the additional taxes received in levy years 2022 [\$754,817.21], 2023 [\$796,320.14] and, but for this abatement, 2024 [\$832,662.98]

(In other words the \$2,383,800.34 includes this years \$832,662,98)

Thanks!

Due to the CPI growth on that initial additional \$754,817.21 in taxes (and based on the spreadsheet you provided), it appears that a levy year 2024 abatement of \$832,662.98 would get your AEB back to where you would have been but for the (previous) Clerk's error.

To the extent any additional abatement is required of the District to "return" the additional taxes to taxpayers, that additional abatement would need to come from a levy outside PTELL in order for the District to be held harmless in terms of AEB impact.

We calculate the total amount that would need to be abated to the taxpayers as \$2,383,800.34, such amount being the sum of the additional taxes received in levy years 2022 [\$754,817.21], 2023 [\$796,320.14] and, but for this abatement, 2024 [\$832,662.98]

(In other words the \$2,383,800.34 includes this years \$832,662.98)

Thanks!

Steve

The overlap and the EZ recovery is blank because I'm not done with tax extensions yet.

Thanks. Those numbers could impact the \$832 for this year. So that might need to be adjusted once those numbers are entered.

Also, I stated I should have a response by Monday on the remaining amounts, but it is Easter weekend, so they might be out of the office on Monday.

The bond payment will be abated with our EBF (state funds). We will work with our bond attorneys to set this up

Here is the response I received from our municipal advisor. We can pay the entire remaining amount as an abatement next year. So it will all be finalized next year at this time.

1) Tammie, our architect is working on finding 5-6 million in fire safety needs. I am updating my original request to have a first year payment of 1.6 million built into a 6 million bond. Is that doable? Yes. Within the time frame? Yes. We'll structure a \$6 million bond issue with a \$1.6 payment against levy year 2025. We'll structure the remaining debt service with annual payments over 4 years.

The only thing that could change that is if the numbers change when you finalize things like the EZ zone, but I don't know if there will be any impact.

Sherry,

On the Levy Confirmation there has been a change in our 2015 Bond since this was originated. In March we recalled the 2015 bond and reissued a new bond. The original levy amount to be abated for the General Obligation School Bond 2015 was \$2,157,534. The new amount after the bond recall for the 2015 bond is 2,138,583.76.

Sherry,

I apologize. The original levy amount to be abated for the General Obligation School Bond 2015 was \$2,157,534. The new amount after the bond recall for the 2015 bond is 1,118,906.26. I am attaching the updated Debt Service Schedule for this that shows the new amount.

It looks like they took the reduction for this year 832,000 and then in non capped took the first of the two years we owe back. It looks wonky. Would you like this forwarded to Jeff and Kyle?

## Tax Computation Report Question

**rcunningham@jsd117.org Richard Cunningham**

Monday, May 5, 2025 at 12:19:47 PM Central Daylight Time

To: ssills@morgancounty-il.gov Sherry Sills, sptacek@jsd117.org Steve Ptacek, jfunk@millertracy.com Jeff Funk

Sherry,

We are going over the Tax Computation Report. We have a question about the rate setting EAV. The calculation of the rate setting EAV is derived from the Total EAV - TIF Increment to get the Rate Setting EAV. We noticed that this does not subtract out any new property. The limiting rate is calculated by subtracting out new property. Why does the Rate Setting EAV also not subtract out new property? Just trying make sense of the numbers so we can explain this better.

## Question

**sptacek@jsd117.org Steve Ptacek**

Friday, May 9, 2025 at 12:45:00 PM Central Daylight Time

To: ssills@morgancounty-il.com Sherry Sills

Cc: rrunningham@jsd117.org Richard Cunningham, jfunk@millertracy.com Jeff Funk, harding@chapman.com Kyle Harding

Hello Sherry,

Our attorney has one more question we would like clarified. This is to ensure we have an accurate AEB next year.

Based on this tax computation report, what will be our aggregate extension base for levy year 2024 that will be used to calculate the limiting rate in levy year 2025?

Thanks,  
Steve

**From:** Andy Rhodes <rhodes@devnetinc.com>

**Sent:** Friday, May 9, 2025 1:03 PM

**To:** Sherry Sills <ssills@morgancounty-il.gov>

**Subject:** RE: Question

On the tax computation report it's the total extension after TIF/EZ for capped funds.

The total for capped funds is broken out at the bottom of the tax comp. Total Extension after TIF/EZ is a column on the tax comp.

Thank you so much.

Just to be clear, this means it will be \$25,179,212.97? This is the Total (Capped)

I am sorry to be so inquisitive, but I do need to make sure I am clearly understanding his reply?

Hello Sherry,

Our attorney has one more question we would like clarified. This is to ensure we have an accurate AEB next year.

Based on this tax computation report, what will be our aggregate extension base for levy year 2024 that will be used to calculate the limiting rate in levy year 2025?

Thanks,

Steve

Hello again,

We might need to have a conference call with all parties, including your attorney and vendor if you wish.

This years AEB should match last years extension. It is substantially below it. The abatement is off of this year. Ultimately this might not have any impact on the extension since we levied for a dollar amount, but given the error from the past, we are closely looking at each number.

On last year's document the capped total of the extension was  
\$ 24,859,127.31

The AEB used this year is  
\$ 24,062,874.00  
which is \$796,253.31 below the extension.

We are abating to return us to the proper "line" but we think that shouldn't have resulted in a discrepancy between last year's extension and this year's AEB.

This isn't about challenging the money we are getting this year, it is about ensuring accuracy.

Steve

Got this back from vendor and we finished with tax extension today because everyone signed off on their tax comp report. The treasurer has to follow statute to get bills out in June and September.

I previously explained in these spreadsheets how the calculations should have been done in 2022 and 2023, which resulted in the aggregate extension base that you decided to use for 2024. You might want to let Crystal know in case she wants to hold up tax bills until this gets resolved.

This is not what we agreed to. We didn't agree to them adjusting the AEB for last year.

Are they allowed to do this by law?

Thursday, July 3, 2025 at 1:28:01 PM Central Daylight Time

Good afternoon,

Yes. The corrected extension lowered the amount due for tax year 2024, so 80% of the amount I collected so far will be distributed. The 20% holdback is withheld every year for refunds and corrections. The final distribution includes all withheld funds.

Have a great holiday weekend!

Good afternoon,

I hope your summer is going well. Do you know when the first distribution for the tax extension will be?

## Abatement of 2025 Levy for Life Safety Bonds

tammie.beckwithschallmo@ptma.com Tammie Beckwith Schallmo  
 To: rcunningham@sd117.org Richard Cunningham  
 Cc: sptacek@sd117.org Steve Ptacek, mmoore@sd117.org Matthew Moore

Monday, January 5, 2026 at 9:57:43 AM Central Stan

Rick,

Per our conversation this morning please reach out to the Morgan County Clerk to discuss the following:

1. Explain that:

1. the District will issue Life Safety Bonds with a 2025 levy, and that the necessary closing documents will be filed with the County Clerk on February 27<sup>th</sup>.
2. the Board will abate the annual debt service payments on the bonds.
3. for the 2025 levy, the Board will be unable to adopt an abatement resolution until its March 18<sup>th</sup> regular Board meeting.

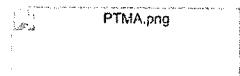

2. Confirm that the County Clerk if they will accept the abatement resolution against the 2025 levy for the Life Safety Bonds on either March 19 or 20.

Thanks,

Tammie

Monday, January 5, 2026 at 10:45:58 AM Central Standard Time

Sherry,

I have been asked by our Bond Counsel and Municipal Advisor to reach out to you regarding the Life Safety Bonds that the District will be selling next month. These bonds will impact the 2025 levy and the necessary closing documents that will be filed with you (the County Clerk) on February 27. The District will abate the 2025 levy for these bonds. However, the Board will not be able to adopt the abatement resolution until the March 18th regular board meeting.

Please confirm that you (the County Clerk) will accept the abatement resolution against the 2025 levy for the Life Safety Bonds on either March 19th or March 20th.

Respectfully,  
 Rick Cunningham, CSBO

Sherry,

Is there an anticipated date when we will hear back regarding our question concerning the Life Safety Bonds and the Abatement Resolution?

On Wed, Jan 7, 2026 at 1:26 PM Richard Cunningham <rcunningham@jsd117.org> wrote:

Sherry,

I am following up with the above request. Has the vendor responded?

On Mon, Jan 5, 2026 at 10:45 AM Richard Cunningham <rcunningham@jsd117.org> wrote:

Sherry,

I have been asked by our Bond Counsel and Municipal Advisor to reach out to you regarding the Life Safety Bonds that the District will be selling next month. These bonds will impact the 2025 levy and the necessary closing documents that will be filed with you (the County Clerk) on February 27. The District will abate the 2025 levy for these bonds. However, the Board will not be able to adopt the abatement resolution until the March 18th regular board meeting.

Please confirm that you (the County Clerk) will accept the abatement resolution against the 2025 levy for the Life Safety Bonds on either March 19th or March 20th.

Since Tammie asked me to reach out to the County Clerk with the abatement request, I have done so weekly and still have not gotten any answer. As stated in the group emails, she has reached out to their Third Party Vendor and she has not received any word back. How would you like me to proceed with this?

Sherry,

I have been asked by our Bond Counsel and Municipal Advisor to reach out to you regarding the Life Safety Bonds that the District will be selling next month. These bonds will impact the 2025 levy and the necessary closing documents that will be filed with you (the County Clerk) on February 27. The District will abate the 2025 levy for these bonds. However, the Board will not be able to adopt the abatement resolution until the March 18th regular board meeting.

Please confirm that you (the County Clerk) will accept the abatement resolution against the 2025 levy for the Life Safety Bonds on either March 19th or March 20th.

## Press Release

**sptacek@jsd117.org Steve Ptacek**

To: mwoods@morgancounty-il.gov Michael Woods, mwankel@morgancounty-il.com Mike Wankel (mwankel@morgancounty-il.com), rwood@morgancounty-il.com

Cc: mmoore@jsd117.org Matthew Moore, rcunningham@jsd117.org Richard Cunningham

Monday, January 12, 2026 at 2:14:51 PM Central Standard Time

I need to clarify the inaccurate math Mr. Woods used in his "press release". His numbers of what is owed are off. We agreed on these numbers in the MOU:

### Taxing Errors

1. Levy Year 2022-\$754,817 (overpayment)
2. Levy Year 2023-\$796,320 (overpayment)
3. Levy Year 2024-\$832,663 (Was not actually sent out to the taxpayers, see #1 below. Since it was not collected, we don't have to repay it).

### Pay Back

1. Levy Year 2024-Reduced aggregate extension based from \$24,859,127 to \$24,062,874 which reduced the levy year 2024 total capped extension in the amount of \$833,193 **AEB was reduced**
2. Levy Year 2024-Abated \$823,663 **completed**
3. Levy 2025-District will need to abate \$717,944 (still owe) (Attorneys from both entities will be involved in confirming this final number).

### Result:

- We collected \$500,000 less in taxes in 2025 (tax year 2024) than we collected in 2024 (tax year 2023).
- The district finding of this error and immediately reporting it will save the tax payers at least \$10 million over the next 10. The annual amount of over collection would have increased by CPI each year.

I have issued all of this information at multiple open session board meetings. I discussed the overpayment at last month's tax presentations.

This is an FYI for the others as we move forward into the final payback session.

Steve Ptacek

Mr. Ptacek (et.al.):

Monday, January 12, 2026 at 6:41:26 PM Central Standard Time

Thank you for taking the time to outline the district's understanding of the levy errors, abatements, and corrective actions. I appreciate the detail you have provided and the district's acknowledgment that an overpayment occurred and required remediation.

I want to clarify the source of the figures I referenced, as accuracy and good faith matter. The approximately \$850,000 figure came directly from the WLDS article reporting on your August 27 board meeting. The remaining figures—bringing the total overpayment to more than \$2.4 million, with roughly \$1.5 million (\$833,193 and \$717,944) still outstanding—came directly from County Clerk Sills, whose office is responsible for official tax records and levy reconciliation. My statements were based on those public and official sources.

My concern has never been about intent, blame, or motive. It is about the continued absence of a clear, consolidated, and easily understood public explanation of the full overpayment and the remaining balance owed. While information has been shared across

multiple meetings and documents, the overall accounting has not been presented in a way that allows the public—or even me as a county commissioner—to readily understand the complete scope of the issue. I raised these concerns only after allowing ample time for the matter to be fully resolved and clearly communicated.

I also want to state plainly that this issue has no connection whatsoever to my prior concerns regarding masking protocols during the 2021 return to school. Those matters are entirely unrelated. This is solely about transparency, fiscal accountability, and stewardship of taxpayer dollars. Given the seriousness of the issue, I would have expected a professional response focused on facts and public clarity—not a tit-for-tat characterization that frames this as a personal vendetta, or that seeks to undermine or minimize the substance of the concerns being raised.

While you have noted that this matter has been presented at multiple board meetings, I offer the following as constructive feedback: the presentations, taken collectively, have been confusing and have often had the effect of minimizing the significance of the overpayment by redirecting attention toward future projected savings. Preventing future overcollection is important, but it does not resolve the core issue. At its heart, this matter is straightforward: an overpayment occurred, and the public deserves a clear, complete, and unified plan that plainly shows the total amount overpaid, the amounts already addressed, and the remaining balance to be repaid.

Finally, if there remains any disagreement or misunderstanding regarding the amounts still owed—as suggested by the fact that the figures I referenced came directly from the County Clerk—then that alone signals the need for greater clarity. If the Clerk, the district, and the county are not fully aligned on the same numbers, it indicates that this matter may not be as settled or universally understood as has been asserted.

My continued engagement on this issue is not personal. It is rooted in my responsibility to ensure transparency, accountability, and public trust in how taxpayer dollars are managed. I remain committed to working constructively toward a clear and final resolution that serves the district, the county, and—most importantly—the taxpayers we all represent.

Respectfully,  
Michael Woods  
Morgan County Commissioner

Wednesday, January 14, 2026 at 3:10:25 PM Central Standard Time

Mr. Woods,

We have an MOU with agreed numbers and a payment plan. Those numbers were calculated following the input of the county's vendor and attorneys from both sides.

I find it ridiculous that you think that sending out a press release instead of organizing another meeting and voicing your concerns could at all be consider you being "committed to working constructively toward a clear and final resolution"

I am currently contemplating the level of my response.

Regarding interest, this wasn't a JSD mistake, this was a county mistake. If any interest is owed, it is owed by the county. Remember, we highlighted this error and we are the reason the tax payers will save almost \$900,000 this year that will increase each year by CPI. This will total around 10 million dollars in savings over the next decade. If you are about saving the taxpayers money, JSD117 should be thanked for finding this error.

Steve Ptacek

**Subject:** Press Release: District 117 Tax Overpayment & Call for Transparency

Dear Morgan County Press:

Below is a press release for your consideration regarding the District 117 tax overpayment issue. While some aspects have been reported, significant questions remain—particularly around transparency, accountability, and the full repayment of taxpayer funds.

I believe this is an important public-interest matter for Morgan County residents, and I respectfully encourage your team to examine and share the full story.

Please feel free to reach out if you have questions or would like additional information or comment.

Thank you for your time and attention.

Best regards,  
Michael Woods  
County Commissioner, Morgan County

**FOR IMMEDIATE RELEASE**

## County Commissioner Michael Woods Calls for Full Transparency and Taxpayer Restitution in District 117 Tax Overpayment Case

**Jacksonville, IL** — County Commissioner Michael Woods is calling on local media and county officials to fully examine and transparently report on a significant tax overpayment involving Jacksonville School District 117 —an issue that remains only partially resolved and insufficiently explained to the public.

Recent reporting by WLDS / WEAI News and a Jacksonville District 117 Facebook post dated August 29, 2025 confirm that the district identified a substantial tax overpayment during a historical financial review. According to Superintendent Steve Ptacek, the issue surfaced when levy figures from two separate years failed to reconcile during a multi-year analysis.

To date, District 117 has addressed approximately \$850,000 of the error. However, the total overpayment exceeded \$2.4 million, leaving more than \$1.5 million (\$833,193 and \$7171,944) in taxpayer funds still

owed to the residents of Morgan County, including any interest from these funds over the past 3 years.

"That remaining balance alone demands a higher level of urgency, transparency, and public accountability than we have seen so far," Woods said.

Commissioner Woods has formally requested that the Morgan County Clerk provide a written report at the next County Board meeting outlining:

- The exact mechanism by which taxpayers will be refunded
- A clear and realistic repayment timeline
- An independent verification process to confirm accuracy and completion

Woods emphasized that the current County Clerk, Ms. Sills, did not create this problem. The issue originated under a prior clerk, who altered internal systems in a way that bypassed required levy and extension protocols. However, Woods noted that inheriting the problem does not remove the obligation to fully explain how it occurred, why it went undetected, and what safeguards are now in place to prevent a recurrence.

"Public dollars were misallocated," Woods said. "The response must therefore be public, documented, and decisive. Taxpayers deserve a complete accounting—not partial explanations or piecemeal fixes."

Woods also urged local media to pursue the full story, including the role of prior administrative decisions and the absence of transparency to date, rather than relying solely on district-level summaries.

"This matter affects every taxpayer in Morgan County and every household served by District 117," Woods added. "Residents are entitled to clarity, restitution, and confidence that this failure will not happen again."

Commissioner Woods concluded by stating that the issue must now be addressed openly and without further delay.

Nothing new.

We noticed their error, we brought it to their attention. We have fully supported the paying back all of the overpayments.

He is creating something from nothing.

We are still working with them on how to do it properly without having that overpayment remain a permanent penalty every year moving forward.

He is completely out of line

#### FOR IMMEDIATE RELEASE

#### **County Commissioner Michael Woods Calls for Full Transparency and Taxpayer Restitution in District 117 Tax Overpayment Case**

**Jacksonville, IL** — County Commissioner Michael Woods is calling on local media and county officials to fully examine and transparently report on a significant tax overpayment involving Jacksonville School District 117—an issue that remains only partially resolved and insufficiently explained to the public.

Recent reporting by WLDS / WEAI News and a Jacksonville District 117 Facebook post dated August 29, 2025 confirm that the district identified a substantial tax overpayment during a historical financial review.

According to Superintendent Steve Ptacek, the issue surfaced when levy figures from two separate years failed to reconcile during a multi-year analysis.

To date, District 117 has addressed approximately \$850,000 of the error. However, the total overpayment exceeded \$2.4 million, leaving more than \$1.5 million (\$833,193 and \$7171,944) in taxpayer funds still owed to the residents of Morgan County, including any interest from these funds over the past 3 years.

"That remaining balance alone demands a higher level of urgency, transparency, and public accountability than we have seen so far," Woods said.

Commissioner Woods has formally requested that the Morgan County Clerk provide a written report at the next County Board meeting outlining:

- The exact mechanism by which taxpayers will be refunded
- A clear and realistic repayment timeline
- An independent verification process to confirm accuracy and completion

Woods emphasized that the current County Clerk, Ms. Sills, did not create this problem. The issue originated under a prior clerk, who altered internal systems in a way that bypassed required levy and extension protocols. However, Woods noted that inheriting the problem does not remove the obligation to fully explain how it occurred, why it went undetected, and what safeguards are now in place to prevent a recurrence.

"Public dollars were misallocated," Woods said. "The response must therefore be public, documented, and decisive. Taxpayers deserve a complete accounting—not partial explanations or piecemeal fixes."

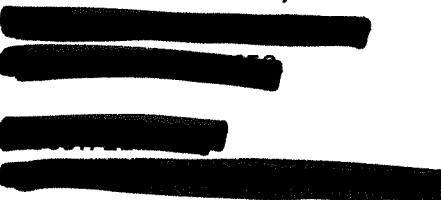

Woods also urged local media to pursue the full story, including the role of prior administrative decisions and the absence of transparency to date, rather than relying solely on district-level summaries.

"This matter affects every taxpayer in Morgan County and every household served by District 117," Woods added. "Residents are entitled to clarity, restitution, and confidence that this failure will not happen again."

Commissioner Woods concluded by stating that the issue must now be addressed openly and without further delay.

### FOR IMMEDIATE RELEASE

#### **County Commissioner Michael Woods Calls for Full Transparency and Taxpayer Restitution in District 117 Tax Overpayment Case**

**Jacksonville, IL** — County Commissioner Michael Woods is calling on local media and county officials to fully examine and transparently report on a significant tax overpayment involving Jacksonville School District 117 —an issue that remains only partially resolved and insufficiently explained to the public.

Recent reporting by WLDS / WEAI News and a Jacksonville District 117 Facebook post dated August 29, 2025 confirm that the district identified a substantial tax overpayment during a historical financial review. According to Superintendent Steve Ptacek, the issue surfaced when levy figures from two separate years failed to reconcile during a multi-year analysis.

To date, District 117 has addressed approximately \$850,000 of the error. However, the total overpayment exceeded \$2.4 million, leaving more than \$1.5 million (\$833,193 and \$7171,944) in taxpayer funds still owed to the residents of Morgan County, including any interest from these funds over the past 3 years.

“That remaining balance alone demands a higher level of urgency, transparency, and public accountability than we have seen so far,” Woods said.

Commissioner Woods has formally requested that the Morgan County Clerk provide a written report at the next County Board meeting outlining:

- The exact mechanism by which taxpayers will be refunded
- A clear and realistic repayment timeline
- An independent verification process to confirm accuracy and completion

Woods emphasized that the current County Clerk, Ms. Sills, did not create this problem. The issue originated under a prior clerk, who altered internal systems in a way that bypassed required levy and extension protocols. However, Woods noted that inheriting the problem does not remove the obligation to fully explain how it occurred, why it went undetected, and what safeguards are now in place to prevent a recurrence.

“Public dollars were misallocated,” Woods said. “The response must therefore be public, documented, and decisive. Taxpayers deserve a complete accounting—not partial explanations or piecemeal fixes.”

Woods also urged local media to pursue the full story, including the role of prior administrative decisions and the absence of transparency to date, rather than relying solely on district-level summaries.

"This matter affects every taxpayer in Morgan County and every household served by District 117," Woods added. "Residents are entitled to clarity, restitution, and confidence that this failure will not happen again."

Commissioner Woods concluded by stating that the issue must now be addressed openly and without further delay.

I have communicated with JJC, WLDS, and the Source today with this info.

His numbers aren't even accurate. Here are the actual numbers from our MOU:

#### Taxing Errors

1. Levy Year 2022-\$754,817 (overpayment)
2. Levy Year 2023-\$796,320 (overpayment)
3. Levy Year 2024-\$832,663 (Was not actually sent out to the taxpayers, see #1 below. Since it was not collected, we don't have to repay it).

#### Pay Back

1. Levy Year 2024-Reduced aggregate extension based from \$24,859,127 to \$24,062,874 which reduced the levy year 2024 total capped extension in the amount of \$833,193 **AEB was reduced**
2. Levy Year 2024-Abated \$823,663 **completed**
3. Levy 2025-District will need to abate \$717,944 (still owe) (Attorneys from both entities will be involved in confirming this final number).

Result:

- We collected \$500,000 less in taxes in 2025 (tax year 2024) than we collected in 2024 (tax year 2023).
- The district finding of this error and immediately reporting it will save the tax payers at least \$10 million over the next 10. The annual amount of over collection would have increased by CPI each year.

I have several guesses as to why he is being so aggressive with what is actually a non-story. I think we are probably in agreement about the real goal he is attempting to achieve.

We will be examining the county's data in detail each year. The data will be added to the trend chart and we will look for any possible inconsistencies.

We found the error, we immediately notified the county, and we worked with them on this agreed payback schedule. There is no reason for him to take his stance.

The only thing he could latch onto is that I haven't done a detailed presentation/communication to the public on the matter. I have been waiting until the last payback is finalized. Also, given this was caused by a county error, in one of our early meetings the commissioners asked me not to make this into a public issue until a solution was finalized. I gave them the political respect of only addressing as needed at school board meetings and during my tax presentations last month.

In no way have we attempted to "hide" this. Why would we? The district found the error and we are the ones that have saved the tax payers substantial money going into the future.

This is an FYI... I will need to think about how to properly respond.

This is a political move for him. He is about to be voted out of office and he feels it. His appointment will end in March!

I will stand behind everything you have said. The district uncovered the error and have begun making the repayment of funds. What else could anyone ask for? The county was fine with that resolution when it was made.

I can find NO good use for this person. He spends too much time in others business and cant even mind his own. One would hope that the community is also learning this lesson. Do not listen to him!

Appreciate all your hard work and for having the strongest back bone I have ever seen!!

## Press Release

**sptacek@jsd117.org Steve Ptacek**

Monday, January 12, 2026 at 2:14:51 PM Central Standard Time

To: mwoods@morgancounty-il.gov Michael Woods, mwankel@morgancounty-il.com Mike Wankel (mwankel@morgancounty-il.com), rwood@morgancounty-il.com

Cc: mmoore@jsd117.org Matthew Moore, rcunningham@jsd117.org Richard Cunningham

I need to clarify the inaccurate math Mr. Woods used in his "press release". His numbers of what is owed are off. We agreed on these numbers in the MOU:

### Taxing Errors

1. Levy Year 2022-\$754,817 (overpayment)
2. Levy Year 2023-\$796,320 (overpayment)
3. Levy Year 2024-\$832,663 (Was not actually sent out to the taxpayers, see #1 below. Since it was not collected, we don't have to repay it).

### Pay Back

1. Levy Year 2024-Reduced aggregate extension based from \$24,859,127 to \$24,062,874 which reduced the levy year 2024 total capped extension in the amount of \$833,193 **AEB was reduced**
2. Levy Year 2024-Abated \$823,663 **completed**
3. Levy 2025-District will need to abate \$717,944 (still owe) (Attorneys from both entities will be involved in confirming this final number).

### Result:

- We collected \$500,000 less in taxes in 2025 (tax year 2024) than we collected in 2024 (tax year 2023).
- The district finding of this error and immediately reporting it will save the tax payers at least \$10 million over the next 10. The annual amount of over collection would have increased by CPI each year.

I have issued all of this information at multiple open session board meetings. I discussed the overpayment at last month's tax presentations.

This is an FYI for the others as we move forward into the final payback session.

Steve Ptacek

**mwoods@morgancounty-il.gov Michael Woods**

Monday, January 12, 2026 at 6:41:26 PM Central Standard Time

To: sptacek@jsd117.org Steve Ptacek, mwankel@morgancounty-il.com Mike Wankel, rwood@morgancounty-il.com Racer Wood

Cc: mmoore@jsd117.org Matthew Moore, rcunningham@jsd117.org Richard Cunningham, ssills@morgancounty-il.gov Sherry Sills

Mr. Ptacek (et.al.):

Thank you for taking the time to outline the district's understanding of the levy errors, abatements, and corrective actions. I appreciate the detail you have provided and the district's acknowledgment that an overpayment occurred and required remediation.

I want to clarify the source of the figures I referenced, as accuracy and good faith matter. The approximately \$850,000 figure came directly from the WLDS article reporting on your August 27 board meeting. The remaining figures—bringing the total overpayment to more than \$2.4 million, with roughly \$1.5 million (\$833,193 and \$717,944) still outstanding—came directly from County Clerk Sills, whose office is responsible for official tax records and levy reconciliation. My statements were based on those public and official sources.

My concern has never been about intent, blame, or motive. It is about the continued absence of a clear, consolidated, and easily understood public explanation of the full overpayment and the remaining balance owed. While information has been shared across

multiple meetings and documents, the overall accounting has not been presented in a way that allows the public—or even me as a county commissioner—to readily understand the complete scope of the issue. I raised these concerns only after allowing ample time for the matter to be fully resolved and clearly communicated.

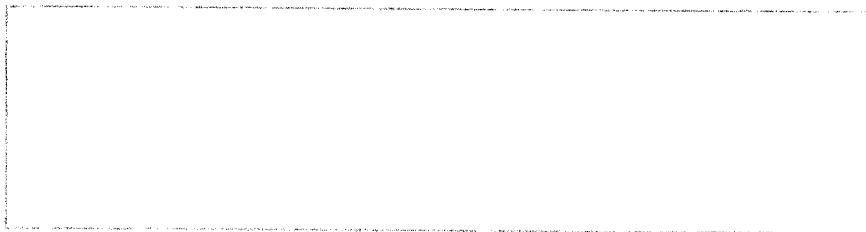

I also want to state plainly that this issue has no connection whatsoever to my prior concerns regarding masking protocols during the 2021 return to school. Those matters are entirely unrelated. This is solely about transparency, fiscal accountability, and stewardship of taxpayer dollars. Given the seriousness of the issue, I would have expected a professional response focused on facts and public clarity—not a tit-for-tat characterization that frames this as a personal vendetta, or that seeks to undermine or minimize the substance of the concerns being raised.

While you have noted that this matter has been presented at multiple board meetings, I offer the following as constructive feedback: the presentations, taken collectively, have been confusing and have often had the effect of minimizing the significance of the overpayment by redirecting attention toward future projected savings. Preventing future overcollection is important, but it does not resolve the core issue. At its heart, this matter is straightforward: an overpayment occurred, and the public deserves a clear, complete, and unified plan that plainly shows the total amount overpaid, the amounts already addressed, and the remaining balance to be repaid.

Finally, if there remains any disagreement or misunderstanding regarding the amounts still owed—as suggested by the fact that the figures I referenced came directly from the County Clerk—then that alone signals the need for greater clarity. If the Clerk, the district, and the county are not fully aligned on the same numbers, it indicates that this matter may not be as settled or universally understood as has been asserted.

My continued engagement on this issue is not personal. It is rooted in my responsibility to ensure transparency, accountability, and public trust in how taxpayer dollars are managed. I remain committed to working constructively toward a clear and final resolution that serves the district, the county, and—most importantly—the taxpayers we all represent.

Respectfully,  
Michael Woods  
Morgan County Commissioner

Mr. Woods,

We have an MOU with agreed numbers and a payment plan. Those numbers were calculated following the input of the county's vendor and attorneys from both sides.

I find it ridiculous that you think that sending out a press release instead of organizing another meeting and voicing your concerns could at all be consider you being "committed to working constructively toward a clear and final resolution"

I am currently contemplating the level of my response.

Regarding interest, this wasn't a JSD mistake, this was a county mistake. If any interest is owed, it is owed by the county. Remember, we highlighted this error and we are the reason the tax payers will save almost \$900,000 this year that will increase each year by CPI. This will total around 10 million dollars in savings over the next decade. If you are about saving the taxpayers money, JSD117 should be thanked for finding this error.

Steve Ptacek

Just wanted to reach out to you, about the stuff that Michael Woods has done, no one here at the County knew he was going to do that, he just did it all on his own, I told him that I was working with the District getting this taken care of, he has sat in on all the meetings so it's not like he didn't know what was going on I also told him that we have a agreement in place so why he thought he had to do it this way I have no clue. But just wanted to let you know that we the County had no clue that this was going to happen.

Thanks

Sherry

Just wanted to reach out to you, about the stuff that Michael Woods has done, no one here at the County knew he was going to do that, he just did it all on his own, I told him that I was working with the District getting this taken care of, he has sat in on all the meetings so it's not like he didn't know what was going on I also told him that we have a agreement in place so why he thought he had to do it this way I have no clue. But just wanted to let you know that we the County had no clue that this was going to happen.

Thanks

Sherry

Thank you so much for the email. I knew it was just him. I am going to have to respond, but I will ensure that I don't make you and the other two commissioners look bad.
