

MEMORANDUM

December 7, 2016

TO: Members of MVSEC Executive Advisory Board

FROM: Carla Cumblad, Executive Director

RE: Listing of Instructional Materials

According to Executive Advisory Board Policy 6:210:

“The Executive Director or designee shall annually provide a list of textbooks and instructional materials used in the Cooperative to the Board.”

For a special education cooperative, there are many materials that may support the individualized instruction of learners that require highly specialized instruction. At the December 7 Board meeting, updated spreadsheets will be presented. The tables of instructional materials have been updated to reflect the focus on reading, math, social skills instruction and assessments across all programs. Instructional materials that have been purchased for use in the 2016-17 school year are noted in **bold or red**.
