

C.3.a.7)

Greetings,

As for Marlys Johnson, she was the only local person consulting with Head Start programs to do their mental health observations. She had worked for Arrowhead Head Start which serves the communities surrounding Duluth.

The Safe Schools Healthy Student grant provides 2 more part-time mental health folks to us now. Psychologists who have a specialization in early childhood and are independent are few and far between in this area.

Should you need more explanation, please feel free to contact me.
I am happy to help.

Warmly,

Pam Rees
