

## New Position of Weight Room Coordinator

### **Background:**

It can be a struggle to get young people to go to the school's weight room and work hard to help make themselves better at their favorite sports. I am asking the school board to approve a position of weight room supervisor at a salary of what we would pay a spring-season head coach, \$3,800.

### **Review of Research:**

The reason for the rate of pay is that it is a year-long season. The position and salary could potentially be split between two or more employees.

This rate is similar to some other schools that have such a position. At Eagle Grove, for example, the weight room lead gets \$3,900, and the assistant gets \$2,500. Clarion pays \$3,160.

### **Recommended Action:**

I recommend the board move to create this new position and authorize the hiring of someone to fill it.
