Re: Rainbird Pumpstation for Fremont High School

WSD Superintendent and Board Members,

Maintenance Grounds department is asking for the Boards approval to purchase a Rainbird Pumpstation 420 GPM @ 110PSI 208v/3ph/60hz. The funding for this pumpstation would come out of the Capital Outlay Budget. The total cost for the Pumpstation is \$87,750.00. We would like to add this as a permanent solution for the Campus. Pineview water systems PSI is lower than 30PSI. The PSI needed is 85PSI minimum to keep the facilities watering possible. Rainbird Pumpstations must be ordered through a Rainbird ASP Vendor. Only two in Utah have that rating. Sprinkler Supply and Mountainland Supply. Sprinkler Supply is who we would like to order this from. They include pump start up and support for the Pumpstation for the Life of the unit. Mountainland Supply will only provide start up.

Thank you for your consideration of this acquisition. If I can provide you with further clarification or answers to questions, please feel free to contact Cody Barnes at 801-476-7904. Alternatively, you reach him on his cell phone at 801-940-0737.

Sincerely,
Cody Barnes
Supervisor
Weber School District Maintenance
