**1. Please state your proposal briefly and clearly. What do you want the board to know, discuss, or decide?** Newbridge HS requests approval to participate in Project READY (research on Employability Skills for Adjudicated Youth) with the University of Oregon. The project is designed to develop a curriculum specific to incarcerated youth that will help prepare them for the work place.

**2. Provide history/background information on your proposal.**  
We have a successful history of working with the University of Oregon on transition related research grants. All expenses are covered by the University of Oregon. Two out of state trips may be required for my vocational education teacher.

**3. List the advantages of your proposal.**  
We receive valuable curriculum materials and the opportunity to develop a deeper understanding of research-based programming to support successful transitions for incarcerated youth.

**4. List possible disadvantages of your proposal.**  
We miss out on an important learning opportunity that can increase the value of our program. The teacher will be out of the classroom about five days over the course of the year.

**5. List possible alternatives that could also offer a solution to your proposal. Why were they not recommended?**

We can wait for the research to be completed and purchase the materials later.
