Update on Parking/Traffic Control Project

Background: Following the approval by the Board to research this project and go out for bids, we have employed the CT Brannon Co. to coordinate this project. We advertised for bids for the first half of the project, Primary-Middle School, on June 14th. These bids are due on Tuesday June 25th. There will hopefully be a called board meeting on Thursday, June 27th to award this bid. The High-Elementary project will be put out for bid in approximately two weeks.
