

Board Report
February 22, 2021
Mike Flanagan, Superintendent Designee

Career & Technical Education Update

We've posted the position and Shelley Wagner and I have had several applicants. We have no solid timeline, but as quality candidates come forward, we will begin the interview process.

Principals & Out-n-About

I'm in the buildings often with the goal of touching base individually with principals weekly. This will become more intentional as we look to next year.

(Open Session) On the Horizon...

- Thank you so much for coming to the rebranded Education Committee, featuring Mr. Duncan in our welding program facility. I would also like to thank Mickie as the staff head of the committee, as well as Shelley, for organizing and hosting the event. More events like that to come!
- At the ESJ meeting, we'll be starting some work on restorative justice. I've been working with Evelyn and Patti individually to map out the remainder of the meetings in line with the equity work that Julie has been guiding in the buildings for many years (but making sure that the committee work is concurrent and makes sense topically).
