NJHS

Tonight we are inducting the new members into the NJHS at CMS. 7th graders are first selected by their grades. I first average their first and second semester averages from their 6th grade years and then the first semester and 4th 6 weeks from their 7th grade years. Once I have those 4 grades I average them and if they come out to a 93 then they are eligible to be a candidate. Then I give them a form to fill out where they can write about their different activities in school and in the community. They can also write an essay on why they would make a good candidate for NJHS. After all of that is turned in, then a faculty council of 5 teachers will get together and decide who will become members. Here is the list:

Ashlin Alvarez
Aurora Bonilla
Trinity Douglas
Emily Ducasse
KeAndrea Emerson
Lia Espinoza
Noah Harrell
Janci Johnson
Ruthie Murphy
Jalen Gavin Naylor
Brooke Oden
Angelica Pena
Savannah Shiller
Josiah Silva
Courtney Wooddell

Kristy Frizzell

Resource Classes

Reading Resource is reading short novels! 6th grade is reading The Westing Game and doing activities such as a maze activity and Guess Who games. 7th grade is reading Maniac Magee and attempting smaller versions of the legendary feats Maniac Magee completes in the book.

Resource Language Arts classes have started their own blog, which they practice typing up their writing prompts and practicing correct grammar.

Kim Wruble

7th Grade Science

Seventh Grade Science is finishing up a unit on genetics and adaptation. We are designing organisms and finding how they fit into their environments.

Kathy Beddingfield

7th Grade Math

Seventh grade math students took a comic strip panel. Then, using a 1cm to 8 cm ratio, expanded the image to a larger size keeping the same proportions so that the image would not distort. In much a way that a print shop would make posters out of small images

Martin Diaz

The Middle School faculty and students have been extremely busy the past few weeks preparing for National Junior Honor Society inductions, Survivor Day and Run for the Wall. We have had students participate in Austin at the State National History Day contest and were able to have our students represented in the finals. I think this is an amazing feat. I would also like to add that we received our Reading scores for the eighth grade, and I must commend those students for their effort and results. We had a pass rate of 80 % with 30% commended. This is truly amazing. Nineteen students achieved a commended ranking. I have to say that our teachers are truly amazing and work extremely hard to prepare our students. I know the students are looking forward to the next couple of weeks with certain trips and Survivor Day. Survivor Day will be on May 21. Run for the Wall is on May 16 and is an amazing time to honor those who have served and protected our rights and freedoms. I know our students, staff and others have been diligently preparing for this event.

Thank you for all you do and your support.

Robby Russell
