High School Air Handler

The coil inside the air handler is leaking, I think it has been for a while. It is going to have to be replaced. I had Reliable Mechanical take a look at it and they gave me a price on a new coil from Trane for \$24,000 plus installation. They also gave me a quote to have one made for \$20,088 which includes labor. I can have this unit installed by Graduation, the other was going to be 4-8 weeks. I had Reliable start making it on the 25th of April.
