

*Oak Park D97 presents*

# One Book One District

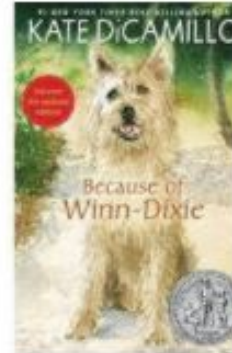

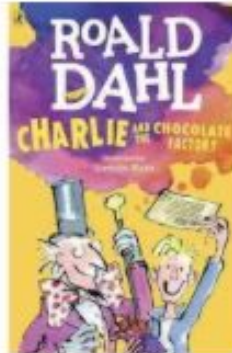

# What is One Book One District?

- ◆ All elementary students read the same book at the same time. New this year – middle school will also join!
- ◆ We have activities that invite conversations about the book across grade levels and groups.

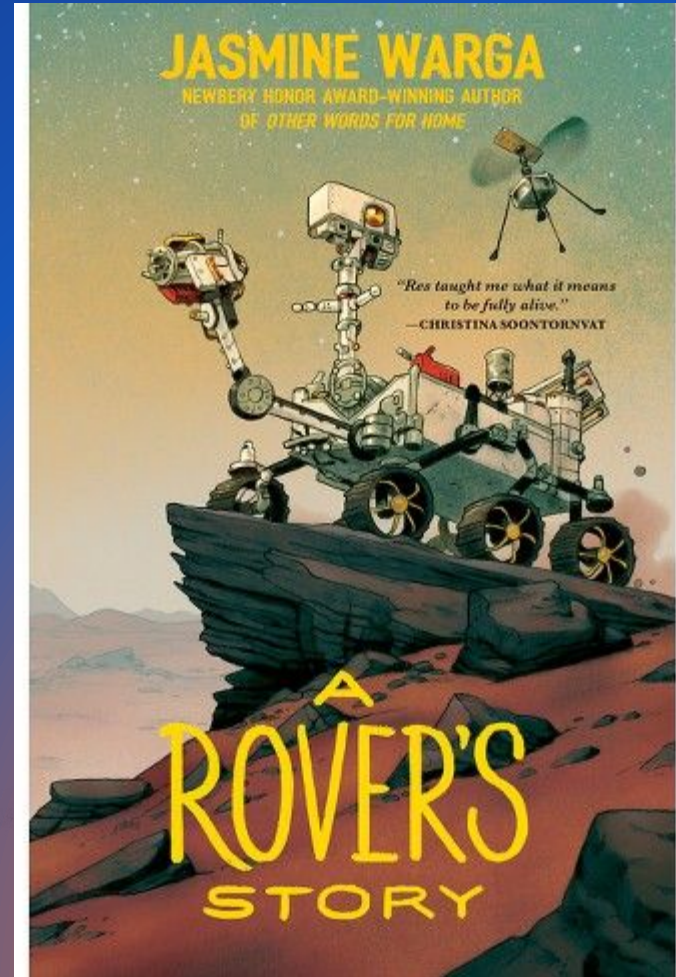

Every family  
gets a copy of  
the book!

# A Rover's Story

Our new book, A Rover's Story, follows a Mars Rover named Resilience and his companions as they explore Mars and overcome tough challenges, all while communicating with friends at home.

Exciting opportunities to connect to STEM and space research.

# Kick off across our schools

# Events throughout the district

- Virtual “fireside chat” with author Jasmine Warga
- Middle School ELA teachers reading along
- Prides, Nests, Dens, Stables etc. will focus on the theme of resilience this month
- Trivia contest and discussion questions each week
- Communication with families and encouragement to read along at home

# Universal Access for D97 Families

- Developmentally appropriate texts have been ordered for PKP/EC students
- The librarian team is working to provide universal access via audio recordings and translations

# By the numbers

2,758 books purchased by D97 for students

621 books purchased by PTOs for staff

(all books provided by The Book Table – our local bookstore!)

Event takes place from 4/2–4/26

A program that touches all students in District 97!

STEM night at the  
OPPL Main Library-  
April 18th , 6-7:30

All of Oak Park is invited to  
discuss the book and  
experiment with new STEM tools!  
Led by D97 & OPPL librarians
