NHS Volunteers!!

The National Honor Society volunteered in April at the Lower Nehalem Migratory Bird Day Celebration in Nehalem. This event was sponsored by the Lower Nehalem Community Trust. Students helped with the snack and refreshments station, craft station for kids, and the greeting guests at the welcome table. It was a wonderful event with a large turn out and many NHS students attended to help out.

Oregon College Savings Plan

The Oregon Treasury Savings Network (OTSN) want to make sure parents are aware of the benefits the Oregon College Savings Plan (OCSP) can provide in helping offset some of the costs associated with attending a post-secondary institution. Whether a child is starting their academic career in kindergarten, or getting ready to graduate high school as a senior, we believe having an OCSP account can help.

Need Ideas to do over the summer?

As summer approaches, some students are excited to what is to come over the summer. Others are apprehensive of what to do with the time that they have to fill the days. Need some ideas? Here is a link to 50 things to do over the summer.

https://blog.collegevine.com/50-summer-activities-for-high-school-students

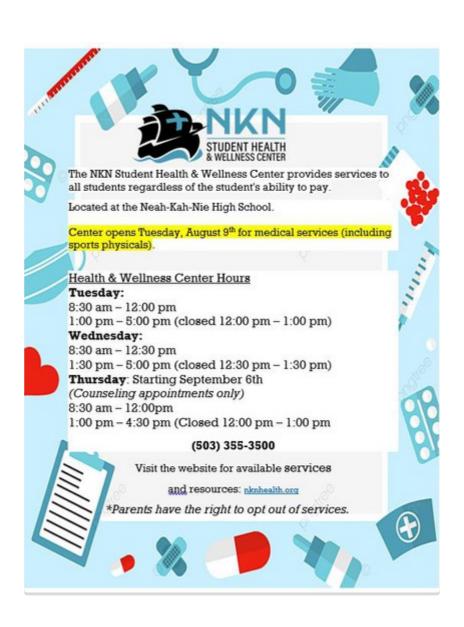

In light of the pandemic and issues some students have faced with meeting their graduation requirements, the Neah-Kah-Nie school board has decided to reduce graduation requirements to 24 credits. This is a reduction of elective credits needed for graduation for the classes of 2023 and 2024. Those students who have completed graduation requirements are encouraged to stay and explore additional classes, take college courses or participate in job shadows and internships. We thank the school board for providing an equitable option for our struggling students and celebrate those students who go above and beyond to prepare for their futures!

Having a diploma is an important step in preparing students for future success. The knowledge, skills and habits a student develops while being in school, help to prepare them for success as an adult.

Developing good study habits and working on self-management skills are an important piece of being successful, both at school and at work! Be on time to class...turn in assignments on time...phones off and away during class - these are all expectations teachers have of students that directly relate to the world of work.

Students who are struggling or are not currently on track to graduate should be encouraged to stay for after-school study hall to complete homework assignments or to make up classes needed for graduation. A little bit of work now can have some huge payoffs for the future!
