

## **KAUFMAN ISD – SAFETY REPORT**

**Best Today, Better Tomorrow!**

**October 2024**

**Drills are progressing throughout the district. Our campus leadership teams are doing a great job of communicating with central office, the fire department, and parents when these are occurring. After each drill, there is a short after-action review to discuss what can improve.**

**Fencing has continued to be expanded at multiple campuses during September:**

**-Kaufman High School Front Guard Fences**

**Upcoming projects this month:**

**-Kaufman High School and Gary Campbell High School, Road Crossing Fences**

**Chief Krieger is working again with Defensify to enhance our safety at Kaufman High School and Gary Campbell High School.**

**The district is already in compliance with the state law, but we are adding additional glass support in areas of high congestion.**
