### 60-13733 - PEAKS Summer Series 2013: Two Trails to Student Success

#### Description:

**Morning 9:00-12:00...**

#### Trail to Building Developmental Assets in School Communities

The Search Institute's Developmental Assets are 40 common sense, positive experiences and qualities that help influence choices young people make and help them become caring, responsible, successful adults. Through discussion and activities this workshop will describe the connections between the Search Institute's Developmental Assets and student achievement and show how to build assets for every student. The ideas shared will transfer not only to your students at school, but also to children you know and love in the community, in your neighborhood, and in your home.

**Afternoon 1:00-4:00...**

#### Trail to the Secret Formula for Student Success

"Two heads are better than one" will take on a whole new meaning after attending this engaging, interactive, hands-on session led by Lubbock ISD Mackenzie Middle School administrators. Discover the SECRET formula that involves YOU working closely with the teachers at your elementary, middle school, or high school campus to provide students with the targeted, prescriptive, multi-tiered instruction required for their success.

**Para-educators...July 24 is a one day workshop incorporating two sessions. Registration for this workshop includes both sessions and all day attendance is appreciated.**

**PEAKS Summer Series 2013 Trails to a Range of Opportunities:  
Focusing on Strategies...Are You on the Right Trail?  
Skill Building Sessions**

**MORNING SESSIONS**

**Everyone Needs AED/CPR Training & Basic First Aid Training-My Life May Depend On It!**

• Date: ~~Time: 9:00am - 12:00pm~~ Presenter: Jeremi St. Clair

If you are a para-educator needing AED/CPR and Basic First Aid Training, this session is for you!

This session will provide participants with hands-on experiential learning regarding the use of an AED and the latest CPR Training. For those who "fear" that someone sometime will require the use of either an AED or CPR, this workshop will assist you in overcoming the fear. If you just want to know what to do should a need arise, this session is for you also. Participants who complete the session satisfactorily will be certified by the American Safety & Health Institute for Community & Work Place (not the American Red Cross) and will receive a card to acknowledge their certification. The trainer for this session is a resource for Region 17 schools when faculty needs this training. Basic First Aid Training will also be part of this session. Join us in learning how to save a life!

**BLOCK Fest-Early Math and Science (repeated in the afternoon)**

• Date: 06/27/2013 ~~Time: 9:00am - 12:00pm~~ Presenter: Yolanda Sanchez, Jerard Lafuente  
If you are a para-educator working with children PreK-3rd Grade, this session is for you! Children's knowledge of math concepts when they enter school is a strong predictor of later achievement, even stronger than early reading ability. Many children leave Kindergarten without a foundational understanding of number and continue to lag behind their peers in math achievement. Come explore the relationships between block play and early math and science. Dress comfortably and bring a pair of socks. We will be on the floor exploring 5 different block stations. Participants will leave with a greater understanding of the benefits of block play as it relates to emergent mathematics.

**How Do You Do Say That and Do That?**

• Date: 06/27/2013 ~~Time: 9:00am - 12:00pm~~ Presenter: Jennifer De Leon, Liz Parks

If you are a para-educator involved in interpretation and assistance with implementation of Special Education services, this is for you! In this session para-educators will learn their role in the ARD process and their responsibility in the implementation of the IEP (Individualized Education Program). Interpretation guidelines will be discussed and the implications on providing information to the ARD members.

**How Full is Your Bucket?**

• Date: 06/27/2013 Time: ~~9:00am - 12:00pm~~ Presenter: Marilyn Vieregge

If you are a para-educator working with Migrant students and/or students with significant challenges, this session is for you! These students often struggle with issues such as poverty, communication difficulties, instructional issues and struggles with "fitting in". As an assistant to these students, you need to constantly look at refreshing your energy and creativity at home and work in order to be your best. Marilyn Vieregge will use themes from the bestseller "The Fred Factor" and "How Full is Your Bucket for Kids" to help you model resiliency and learn how to become more successful by building strong relationships. Come and join us for strategies that make the learning environment more enjoyable for both the students and school staff.

**Plug it, Program it, Play it! Using Simple Technology in Classrooms**

• Date: 06/27/2013 ~~Time: 9:00am - 12:00pm~~ Presenter: Anita Neff

If you are a para-educator working with students who have significant/severe disabilities (life-skills, self-contained, etc.), this session is for you! Are there strange or rarely-used technology items in your classroom, and you have no idea how to use those items? Then, this hands-on workshop will give you the skills you need! This training will be a practical and interactive session to discover what those items are and how to set up and use them instructionally with students who have significant disabilities.

## **AFTERNOON SESSIONS**

### **A Day in the Life of a Para-Educator**

- Date: 06/27/2013 Time: 1:00pm - 4:00pm Presenter: Region 17 Para-educators

If you are a para-educator working in a middle school or high school inclusive classroom, this session is for you! This workshop will help define, create and understand the role of the para-educator in the Special Education Inclusion classroom. It will also explore the relationship and expectations of both the paraprofessional and the certified teacher.

### **BLOCK Fest-Early Math and Science (repeat of the morning session)**

- Date: 06/27/2013 Time: 1:00pm - 4:00pm Presenter: Yolanda Sanchez, Jerard Lafuente

If you are a para-educator working with children PreK-3rd Grade, this session is for you! Children's knowledge of math concepts when they enter school is a strong predictor of later achievement, even stronger than early reading ability. Many children leave Kindergarten without a foundational understanding of number and continue to lag behind their peers in math achievement. Come explore the relationships between block play and early math and science. Dress comfortably and bring a pair of socks. We will be on the floor exploring 5 different block stations. Participants will leave with a greater understanding of the benefits of block play as it relates to emergent mathematics.

### **Everyone Can Move!**

- Date: 06/27/2013 Time: 1:00pm - 4:00pm Presenter: Steve Boothe

If you are a para-educator serving as an assistant in Adaptive PE classes and/or with students receiving Orientation and Mobility training, this session is for you! This session will address concerns in the area of physical fitness and mobility of students with developmental disabilities.

### **Graphic Organizer Toolkit Journal**

- Date: 06/27/2013 Time: 1:00pm - 4:00pm Presenter: Soyla Castillo

If you are a para-educator assisting with small group instruction, this session is for you! The role of the para-educator may include supporting the classroom teacher as well as the student. If you are sometimes asked to assist with small group instruction designed by the teacher, come learn how to creatively adapt a teacher's lesson plan using highly effective graphic organizers. You will create a visual "Graphic Organizer Toolkit Journal" that will include a variety of ways to assist with instruction using graphic organizers.

### **Picture This! The Power of Picture Books**

- Date: 06/27/2013 Time: 1:00pm - 4:00pm Presenter: Terry Handley

If you are a para-educator working with PreK-5th Grade, this session is for you! A picture is worth a thousand words...what can you imagine? Activities incorporated with picture books can bring a child's imagination alive and create endless learning opportunities. Join Terry Handley from Barnes and Noble for an afternoon exploring picture books with activities.

### **Why Do They Do What They Do?**

- Date: 06/27/2013 Time: 1:00pm - 4:00pm Presenter: Anna Phillips

If you are a para-educator who works with students on the Autism Spectrum, this session is for you! Do you have questions on how to address learning styles, behavioral needs or communication issues with students with Autism Spectrum Disorders? Come learn about the basic components of Autism Spectrum. Discover strategies and interventions to meet the unique needs of individuals of all ages with Autism.

## 56-13731 - PEAKS Summer Series 2013...Things I Learned the Hard Way: Effective Behavioral and Instructional Management for Students with Challenging Behaviors

### Description:

Para-educators frequently are the front line defense with students with behavioral challenges; therefore, this workshop will focus on strategies and tips for preventing behavioral problems and for intervening when behavioral problems occur. An array of practical, research-based strategies that the trainer has used effectively with students with emotional/behavioral problems will be presented. Topics to be covered include how to effectively structure classrooms to prevent behavioral problems from occurring; building meaningful relationships with troubled and troubling students; effective use of reinforcers & behavioral contracts; how to effectively offer choices to students; how to de-escalate students; and how to avoid and diffuse power struggles.

Be prepared to laugh and learn!
