Technology Services

To: ECISD

From: Kellie Wilks, Chief Technology Officer

Date: March 3, 2014

RE: Security and Alarms

Modernizing and updating our existing alarm and surveillance infrastructure is needed to continue to keep our district facilities safeguarded. The safety and security of students, teachers, district staff and its guests is our top priority. We will be updating 37 campuses to include the Technical Education Center. We will be updating 10 other ECISD support and service facilities. The average cost to upgrade a high school is \$99,000.00. The average cost to upgrade a Jr. High is \$57,000.00. The average cost to upgrade an elementary is \$50,000.00. The facility upgrades will include new wiring, keypads, a control panel, motion detectors and auxiliary power. The surveillance system will include IP (internet protocol) cameras, new wire to connect them into the district network and management console.
