

Instructional Materials or Technological Equipment Sale or Disposal Notification Form

General Information

Prior to the sale or disposal of instructional materials, the district or open-enrollment charter school must notify Texas Education Agency (TEA) of its intent to sell or dispose of instructional materials or technological equipment. Upon notification, TEA will enter inventory adjustments into EMAT for each transaction of instructional materials that are sold, disposed of, or acquired through the sale of instructional materials.

The local board or governing body president and secretary must sign the completed Instructional Materials or Technological Equipment Sale or Disposal Notification Form(s). Submit all sale or disposal forms via email to instructional.materials@tea.texas.gov as an attachment.

Districts and open-enrollment charter schools must consider the following before selling or disposing of instructional materials:

- Instructional materials used by the district should collectively cover all elements of the essential knowledge and skills of the required curriculum, other than physical education, for each subject and grade level.
- Worn-out materials may be sold for recycling when the district declares them unsuitable for student use. Alternatively, worn-out materials may be sold to a reseller that will re-bind the materials and make them suitable for classroom use.
- The local board of trustees or governing body must reasonably expect that these materials will not be needed for several years. Some elective subject materials may qualify as materials the district will not need for several years if the electives will not be offered.
- Any funds received by the district or school from the sale of instructional materials must be used to purchase instructional materials or technological equipment allowed under Texas Education Code §31.0211.
