### **Philosophy of Teaching**

I believe that my classroom should be one of a safe and consistent environment. My high expectations of each student are laid out from the beginning in order to have the richest learning environment possible. Each student is unique and special in their own way. I must recognize those needs and continue to take my students to a higher level. My daily classroom activities will reflect my desire to teach and love for the individual child. After ten years of teaching I can honestly say that I still love to teach. I've learned that teaching is showing students how much fun learning can be with a positive attitude. It's all about making a difference in a child's life, one child at a time.
