

Executive Summary: 2026-2027 School Fee Schedule

This summary outlines the proposed student fee schedule for the 2026-2027 school year. After a thorough review of departmental needs and current economic conditions, the administration recommends maintaining all registration, activity, and course fees at their current levels.

Key Highlights

- **No Fee Increases:** There are no changes to any fees for the upcoming school year.
- **Community Support:** We remain deeply conscious of how rising external costs and inflation continue to impact our families. By holding fees steady, we aim to provide financial predictability and support for our community.
- **Course Fee Continuity:** Specialized course fees, such as those for Drivers Ed (\$250), CNC Fabrication (\$100), and various AP/College Credit courses (\$50 each), will remain unchanged to ensure student access to elective programs.
- **Three new courses at SVHS will include fees:** Forensic Science (\$20), General Education Math (\$50), and Introduction to Education (\$50)

2026-2027 Fee Schedule

Base Registration	Kindergarten	\$140
