

The schools in this school district will develop a well-rounded and age-appropriate activities program that provides opportunities for students to participate in activities which may include, but are not limited to, journalism and yearbook, music, speech and drama, professional technical organizations, AcaDeca, interscholastic athletics, and any other related school/club organizations. To provide a variety of activities for students, the school district will periodically assess the types of activities offered, the scheduling of facilities and activities, and the expenditure of funds.

Recognizing the importance of a well-rounded activities program to the academic, social, and physical development of students, and recognizing the limited funding available for such activities, this school district requires that all student participants, regardless of the activity, pay a nominal fee as indicated on the fee schedule below. Fees will be held in a dedicated fund to offset costs of operating the student activities program. Students who are unable to pay the fee may receive a full or partial waiver as determined by the superintendent or designee on a case-by-case basis.

Schools will also establish eligibility requirements and fee schedules for students participating in extra-curricular activities.

Student participants must adhere to the school's Code of Conduct.
