

## **MAINTENANCE REPORT**

**March 21, 2017**

**Submitted By: Richard Sanchez**

Since we hired a new Electrician, Nelson Running Crane he caught up on numerous work orders and has been going from school to school and changing out bad ballast and lights and other tasks as asked.

We also had our yearly Boiler Inspection and it all went very well. Kyle and Anthony changed out a couple of igniters out in the boilers at the BMS. Had to repair a broken wooden post in the back of BMS by the kitchen.

As you know, we been trying to keep up with the snow. Thank goodness it's going to warm up soon.

Hobart came to the KWB to fix the dishwasher that had a bad gasket.

Overall, we have been doing work orders on all the schools on a daily basis with numerous trouble calls and picking up trash whenever the wind allows.
