Re: Wireless Routers - 2013 Bond

I would like an opportunity to share with the Board of Education information on the purchase and installation of Wave 2 access points (i.e. - wireless routers) at all District buildings.

As mentioned to the Board at the Study Session of November 27, 2017, the bid opening for this 2013 Bond Fund project occurred on November 13, 2017. The recommended vendor is Presidio in the final amount of \$879,399.21. This final amount includes a trade-in credit for our existing equipment, plus the addition of two voluntary alternate bids we have accepted (see bid tab). A considerable portion of the total cost may be returned to the District via e-Rate reimbursement (up to an estimated \$400,000), which would significantly reduce the overall cost of the project to the District.

Please add this request to the agenda of the Monday, December 4, 2017, Committee of the Whole Meeting. Tim Klan and Rob Greager from Barton Malow, will be joining me at this meeting to explain this requested purchase in more detail to the Board.
