¹ The costs listed for the school district do NOT include the wages/overtime paid to the school district election clerk during the election cycle.

² The district pays the full costs of the polling places for the City of Rice Lake, the four townships and the two unorg precincts (voting machine testing and usage, election judge wages, all supplies, public notice postings, etc.) This is because these areas do NOT vote for Duluth elected officials and the only reason their polling places are open is because the school district is holding an election (their residents votes for Duluth Public School officials, referendums, etc).

³ No primary for the district in 2019 (election costs not obtained from the City)

⁴ Too early to obtain 2020 County election costs (the District does NOT pay any portion of even year election costs)

If the District does not pass a Combined Polling Resolution: \$81,000 - \$231,000 in election costs

- This amount does not include any administrative fees the City/County may charge the District
- This amount does not include any wages/overtime for the school district election clerk
