

## Students

### ACADEMIC HONESTY

BP 5131.9

Academic honesty and personal integrity are foundational components of a student's education in both the process of learning, and individual character development.

The School Board expects that students will be truthful in all academic endeavors, and likewise, experience the requisite honor of proving their capabilities to themselves and the world.

The learning community of students, parents/guardians, staff and administrators shall be responsible for creating and maintaining a positive school climate that encourages honesty.

The School Board expects that students will not cheat, lie, or plagiarize, or commit other acts of academic dishonesty. Students found to have committed an act of academic dishonesty shall be subject to district and school sanctions.

The School Board recognizes that the advancement and availability of artificial intelligence/generative technology (AI/GT), means the learning community is very likely to utilize this new technology. Such use must meet the requirements of academic honesty and yet allow for its application as a new tool for instruction, critical thinking, exploration, and development of original thought and material. It is expected and required that use of AI/GT will be appropriately referenced and noted.
