

## Memorandum

To: Eden Prairie School Board

From: Dr. Josh Swanson

Date: February 19, 2025

Subject: Summary - District Policies

---

On an annual basis District Policies are reviewed. Under policy governance this is the responsibility of the superintendent, but requires board approval. As necessary, policies are also updated based on: changes in statute/legal requirements, a review of the Minnesota School Board Association model policies, and recommendations by our legal counsel. My recommendation is that the board approve the policies below, as presented. I have included a brief summary of the changes to each policy on the table below and the full policies are available for your review within Appendix A of the board packet.

Policy #	Mandatory	Policy Name	Notes for the Board
522	No	Title IX Sex Nondiscrimination Policy, Grievance Procedure & Process	The Office of Civil Rights is now enforcing Title IX under the 2020 rule and directed agencies as such, which requires updates to our policy to meet those changes and align with legal guidance.
524	No	Internet Acceptable Use & Safety Policy	Updates to align with our handbooks around cell phone use and meet MN State statutory deadlines.
