
Asbestos Abatement Projects ECISD – Travis Elementary & Burleson Elementary Schools

- **Purpose:** This project is necessary in order to address renovation needs at Burleson and Travis Elementary Schools. In order for the invasive parts of the construction to begin, asbestos must be removed from the areas in which it currently exists.
- **Background Info:** As construction begins to address Priority 1 & 2 renovations at both schools, asbestos must be abated in certain areas that will be affected by construction. These renovation projects were approved in 2023 bond package and will not be able to begin until the asbestos is removed from specific areas of the schools.
- **Cost:** \$59,500
- **Funding Source:** 693 – Bond Funds
- **Recommended Supplier/Service Provider:** Advanced Environmental Services
