5/13: skid steer for spread gravel

5/31: Mini excavator for planting trees

6/03: Gravely mower went for service after SLP used it

6/06: Sumerix Implements for bad boy mower for service

6/24: BLP back blade for grading roads within the parks

7/01: BFS is builders first source and GFL is the transfer station on 23 for the mattresses and couch that were left at SLP

7/29-8/02: We had toilets, and urinals that were being fixed and had to run back and forth couple times to get supplies. Had a toilet also break during that time so that was an extra trip to get the wax ring and flange.

8/15: Courthouse to drop off the refund for Debra Ross after the meeting on 8/14.
