May 3, 2013

It has come to my attention that District 152 school board members hired security guards. However, I had no knowledge of the new employees. I would like to know the following information regarding the new security guards:

- Names of individuals employed
- Company employed with
- Salary
- Hours worked or currently working
- Paid dates prior to this notice
- Contract, if any

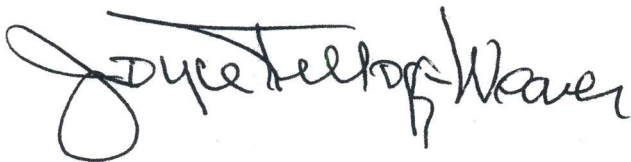

In addition to the new employee record that I am requesting, I would like to view the security camera for the following dates and times:

- Wednesday, May 1, 2013                      5:00 p.m. – 5:45 p.m.
- Thursday, May 2, 2013                      7:00 a.m. – 12:00 a.m. (May 3, 2013)

As a board member I demand equal rights as other board members. It is to my knowledge that board members viewed cameras @ Brooks Middle School on the day the offense occurred without a written foyer; which followed the viewing of the cameras. I was invited to view the cameras, however that day I declined. I am exercising my right, as a board member to do so now. I want all information that I have requested above available Friday, May 3, 2013.

Also, to further prove inequality between board members, there was a board meeting held on Thursday, May 2, 2013. I am very disappointed that George Robinson and I did not receive notification of such board meeting. We were notified of the meeting from a citizen of Harvey School District 152. It has been past practices that all board members are notified prior to meeting, via email, text message, and/or phone call, in addition to the district website, however George and I have no messages received regarding the board meeting.

Thank you,

Joyce Kellogg-Weaver
