

# Special Programs Board Report

*December 2014*

## **Special Education:**

Special Education child count report to the state is in the final stages. It is appearing that although we had many new move in's this year, we have also had many students move out. Our numbers appear to be lower at this time (down by about 10 students).

SPED Caseload: 115 Students K-12

## **ELL:**

Annual Measurable Achievement Objective (AMAO) report has been published. It shows that Sheridan School District did not meet targets this year. As reported previously, the state is using a different growth model method for calculating the measure. This result indicates that students with lower English language proficiency are not making adequate progress when compared to peers.

## **TAG:**

Buildings will implement their plans and continue to differentiate instruction to promote growth for all students. We will continue the identification process of screening all second grade students in early spring.
