

## **Nova Classical Academy LIS Evaluation Handbook**

Summary of Major Changes for 25-26

- Pedagogy Leads and Academic Director made additions to Classical Pedagogy domain in order to reflect core components of classical education
- Changed dates for the 25-26 school year
- Switched around domains 4 and 5 so that all the administrator-observed domains can be together in one document, and then all of the Licenced Instructional Staff self-evaluations can be together in one document. This will alleviate the end-of-year work with data collection for board-approved salary increase, offer letters, and performance pay
- Took out the self-eval domains for the First Formal Observation Summary page, so that teachers can receive this page by the end of February (at the very latest)
- Took out the Curriculum Map Completion Form since this process has been moved to an online system
